CORRIGENDUM.

No. 7549F.—30th October 1934. — The following corrections, which have been authorised, are published for general information:—

Corrigendum to the Fundamental and Subsidiary Rules, 1st Edition (Reprint).

Page 103—F. R. 49—Number the existing Audit Instruction as (1) and *insert* the following as (2):—

(2) Presumptive pay for the purposes of Fundamental Rule 49 (*b*) should according to Fundamental Rule 9 (*24*), be taken to be what the Government servant, who is placed in additional charge, would draw as initial pay in the time-scale of the additional post under Fundamental Rule 22, were he formally transferred to it. In cases, however, in which the maximum pay of the lower post is less than the pay of the Government servant in his substantive post, the application of Fundamental Rule 22 is not clear, and accordingly the Governor-General in Council has decided under Fundamental Rule 8 that in such a case the maximum of the pay of the lower post should be taken as the presumptive pay for the purposes of Fundamental Rule 49 (*b*).

Note.—This ruling will apply to provincial and subordinate services and special posts.

Memorandum on the Bengal Services (Revision of Leave) Rules, 1934.

No. 7581F.—31st October 1934.—The view that the Fundamental Leave Rules are unduly liberal and that they should be replaced by something more closely related to actual requirements was expressed by the Bengal Retrenchment Committee and has been taken by several Governments in India who have recently published revised leave rules for persons appointed to their service after a specified date. The Bengal Government after a detailed examination of the subject, have accepted this view and have made revised rules which will be found in the Bengal Services (Revision of Leave) Rules, 1934, published with Finance Department notification No. 7430F., dated the 29th October 1934. The revised rules apply to all persons subject to the rule-making control of the Bengal Government appointed, or reappointed, to Government service after the 21st July 1931 (the date after which all appointments were declared, as an *ad interim* measure, to be appointments on a provisional basis) who are of Asiatic domicile or, if of non-Asiatic domicile, were not specially recruited overseas for service in India. Provisions in the Fundamental Leave Rules which are not inconsistent with these revised rules (*e.g.*, the provisions regarding Disability Leave) will continue until further orders to apply to those who are subject to the revised rules.

NOTIFICATION.

No. 7430F.—29th October 1934.—In exercise of the powers conferred by rules 41, 42 and 44 of the Civil Services (Classification, Control and Appeal) Rules, the Governor in Council and acting with his Ministers hereby makes the following rules, namely:—

Rules.

1. These rules may be called the Bengal Services (Revision of Leave) Rules, 1934.

2. Subject to the exception hereinafter contained, these rules shall apply (with retrospective effect where necessary from the commencement of service counting for leave) to the following classes of persons subject to the rule-making control of the Government of Bengal whose domicile is Asiatic or who, if their domicile is non-Asiatic, have not been specially recruited overseas for service in India:—

(*i*) All persons who enter or have entered or are or have been re-employed in Government service, whether in a permanent or other capacity, on or after the 22nd July 1931;

(*ii*) Persons who were in Government service whether in a permanent or other capacity on the 21st July 1931, if there is a break in their service after that date:

Provided that, in the case of a munsif who is discharged at the commencement of or during a civil court vacation and re-appointed from the date of the re-opening of the courts, the period of such discharge shall not constitute a break in his service for the purpose of these rules.

Note.—A person re-employed under the Bengal Re-employed Personnel (Conditions of Service) Rules, 1934, will be regarded as having had a break in service.

Exception.—Persons in respect of whom special provisions regarding leave have been made shall be governed by such special provisions, *e.g.*, piece-workers in the Bengal Government Press.

3. All other rules regulating leave and leave procedure contained in the Fundamental Rules and the Subsidiary Rules framed by the Local Government thereunder, as amended from time to time, shall, in so far as they are not inconsistent with, or repugnant in subject or context to, these rules, remain operative in the case of all persons to whom these rules apply:

Provided that, in their application to persons subject to these rules, all references in the Fundamental and Subsidiary Rules to leave on average pay shall be read as references to "earned leave"; and all references to four months' leave without distinction of kind as references to 90 days' leave without distinction of kind.

4. In these rules—

(*i*) "Leave" includes earned leave, leave on private affairs, leave on medical certificate and extraordinary leave;

(*ii*) "Earned leave" means leave earned in respect of periods spent on duty;

(*iii*) "Earned leave due" means the amount of earned leave, calculated as prescribed in rule 10 or rule 11, diminished by the amount of earned leave taken;

(*iv*) "Government servant in permanent employ" means an officer who holds substantively a permanent post or who holds a lien on a permanent post or who would hold a lien on a permanent post had the lien not been suspended.

5. Leave cannot be claimed as of right. Discretion is reserved to the authority empowered to grant leave to refuse or revoke leave at any time according to the exigencies of the public service.

6. Unless the Local Government shall otherwise determine, a Government servant shall cease to be in Government service if he is continuously absent from duty for five years whether with or without leave, unless such absence is absence on foreign service in India.

7. Any kind of leave under these rules may be granted in combination with or in continuation of any other kind of leave.

8. No leave shall be granted beyond the date on which a Government servant must compulsorily retire:

Provided that, if a Government servant has applied in writing for earned leave due to him preparatory to retirement and has on account of the exigencies of the public service been denied that leave in whole or in part by the authority empowered to grant it, the said authority may grant to the Government servant the whole or any portion of the earned leave so denied, even though it extends to a date beyond the date on which such Government servant must compulsorily retire:

Provided further that a Government servant whose service has been extended in the interests of the public service beyond the date of his compulsory retirement may similarly be granted either within the period of extension or, if the conditions of the preceding proviso are satisfied, after its expiry, any earned leave which could have been granted to him under the preceding proviso had he retired on that date and in addition any earned leave due in respect of such extension not exceeding the limit of 90 days in all prescribed in rule 10.

9. Subject to the provisions of rule 5 and rule 8, a Government servant may at any time be granted the whole or any part of the earned leave due to him.

10. The earned leave admissible to a Government servant in permanent employ is one-eleventh of the period spent on duty, provided that, when the earned leave due to a Government servant amounts to 90 days, he shall cease to earn such leave.

11. (*a*) The earned leave admissible to a Government servant not in permanent employ is, when he is in superior service, one-twenty second of the period spent on duty, provided that when the earned leave due amounts to 30 days he shall cease to earn such leave.

(*b*) No earned leave is admissible to a Government servant in inferior service not in permanent employ.

12. A Government servant not in permanent employ appointed without interruption of duty substantively to a permanent post will be credited with the earned leave which would have been admissible if his previous duty had been duty as a Government servant in permanent employ diminished by any earned leave already taken. Leave is not an interruption of duty for the purpose of this rule.

13. Subject to the provisions of rule 14—

(*a*) Earned leave is not admissible to a Government servant in permanent employ serving in a vacation department in respect of duty performed in any year in which he avails himself of the full vacation.

(*b*) The earned leave admissible to such a Government servant in respect of any year in which he is prevented from availing himself of the full vacation is such proportion of 30 days earned leave as the number of days of vacation not taken bears to the full vacation.

If in any year he is prevented from availing himself of any part of the vacation, earned leave is admissible to him in respect of that year in accordance with the provisions of rule 10.

(*c*) Vacation may be taken in combination with or in continuation of any kind of leave under these rules, provided that the total duration of vacation and earned leave taken in conjunction, whether the earned leave is taken in combination with or in continuation of other leave or not, shall not exceed 90 days.

(*d*) Earned leave is not admissible to a Government servant serving in a vacation department who is not in permanent employ.

14. Notwithstanding anything in sub-rules (*a*) and (*b*) of rule 13—

(*a*) the earned leave admissible to the Judges and Registrar of the Small Cause Courts, Calcutta, and to members of the Bengal Civil Service (Judicial) in respect of duty performed in any year in which the officer avails himself of the full vacation shall be 1/22nd of the period spent on duty:

(*b*) the earned leave admissible to such a Government servant in respect of any year in which he is prevented from availing himself of the full vacation shall be such proportion of 15 days earned leave as the number of days of vacation not taken bears to the full vacation.

15. Leave on private affairs may be granted only to a Government servant in permanent employ in superior service and to the following extent, namely:—

(*a*) If not belonging to a Subordinate Service for 18 months in all, and on any one occasion for not more than 3 months if spent wholly in Asia or for not more than 9 months if spent wholly outside Asia;

(*b*) if belonging to a Subordinate Service for 12 months in all, and on any one occasion for not more than 3 months if spent wholly in Asia or for not more than 6 months if spent wholly outside Asia.

16. Leave on medical certificate not exceeding twelve months in all during his service may be granted to a Government servant in permanent employ. Such leave shall be given only on production of a medical certificate from such medical authority as Government may by general or special order prescribe in this behalf and for a period not exceeding that recommended by the medical authority:

Provided that, when the maximum period of 12 months is exhausted, further leave on medical certificate not exceeding 6 months in all may be granted in exceptional cases on the recommendation of a Medical Board.

17. (*1*) Extraordinary leave may be granted to any Government servant in special circumstances—

(*a*) when no other leave is by rule admissible, or

(*b*) when other leave is admissible, but the Government servant concerned applies in writing for the grant of extraordinary leave.

(*2*) Except in the case of a Government servant in permanent employ, the duration of extraordinary leave shall not exceed 3 months on any one occasion.

(*3*) The authority empowered to grant leave may commute retrospectively periods of absence without leave into extraordinary leave.

18. (*1*) A Government servant on earned leave is entitled:—

(*a*) if in permanent employ to leave salary equal to his average pay, or to his average substantive pay for the preceding 12 months, whichever is greater:

Provided that the leave salary of a Government servant in inferior service shall be reduced by half the amount of the pay drawn by any substitute employed in his absence;

(*b*) if not in permanent employ to leave salary equal to his pay on the day before the leave commences.

(*2*) A Government servant on leave on private affairs or leave on medical certificate is entitled to leave salary equal to half his average pay, or to half his average substantive pay for the preceding 12 months, whichever is greater, subject in either case to a maximum of Rs. 750.

(*3*) A Government servant on extraordinary leave is not entitled to any leave salary.

Explanation.—For the purposes of this rule, average pay means the average monthly pay earned during the 36 complete months preceding the month in which the event occurs which necessitates the calculation of average pay, and substantive pay means the pay of the permanent post which the Government servant holds substantively or on which he holds a lien or would hold a lien had the lien not been suspended.

Class VII.

Problems.

Bisection of angles, and straight lines.
Construction of perpendiculars to straight lines.
Construction of an angle equal to a given angle.
Construction of parallels to a given straight line.

Theorems.

If two sides of a triangle are unequal the greater side has the greater angle opposite to it; and the converse.

Any two sides of a triangle are together greater than the third.

Of all straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

When a straight line cuts two other straight lines, if—

(1) a pair of alternate angles are equal, or
(2) a pair of corresponding angles are equal, or
(3) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the straight lines are parallel; and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Class VIII.

Problems.

Division of straight lines into any number of equal parts.
Construction of triangles and quadrilaterals with sufficient data.
Construction of a triangle equal in area to a given quadrilateral.

Theorems.

The sum of the angles of a triangle is equal to two right angles; and the two corollaries thereto.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal and one other side of the one equal to one other side of the other, the triangles are congruent.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram; and the diagonals bisect one another.

If there are three or more parallel straight lines and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

II. The draft will be taken into consideration on or after the 2nd January 1935, and any objection or suggestion in respect thereto which may be received by the undersigned through the District Magistrate before that date will be duly considered.

Draft rules for the preparation, submission and execution of projects for water-supply, sewerage or drainage by union boards.

1. *Definition.*—In these rules—

(*a*) "union board" means a union board constituted under the provisions of the Bengal Village Self-Government Act, 1919.

(*b*) "Chief Engineer" means the Chief Engineer, Public Health Department.

(*c*) "Sanitary Board" means the persons for the time being appointed either by name or by official designation by the Local Government by notification in the *Calcutta Gazette* to constitute a Sanitary Board.

Schemes and Projects.

2. *Preparation of sketch of project.*—(1) Whenever a union board desires to undertake a project for water-supply or sewerage, or a comprehensive scheme of surface drainage, or the improvement or extension of existing works of this description, it shall first cause to be drawn up a sketch of the project roughly showing its scope and approximate cost.

(2) Such sketch may be drawn up—

(*a*) by the Chief Engineer, at the request of the union board; or

(*b*) by any private firm approved by the Chief Engineer; or

(*c*) with the permission of the Chief Engineer, by the District Engineer, for whose services an application should be made to the district board; or

(*d*) by an officer specially appointed by the union board for the purpose, subject to the selection of such officer being approved of by the Chief Engineer.

(3) In cases (*b*) to (*d*) referred to in sub-rule (*2*), the sketch of the project, while in course of preparation, shall be subject to examination by and control of the Chief Engineer.

(4) The Chief Engineer shall, in all cases, act as adviser of the union board.

3. *Submission of sketch, statement and application.*—(1) When the sketch of any project has been drawn up under rule 2 and it is estimated to cost Rs. 10,000 or more, or in the case of an estimate of less than Rs. 10,000, if the financial assistance of Government is desired, or if the project is a part of a larger one, the union board shall submit it to the Sanitary Board through the district board and the Commissioner of the Division, together with a statement wherein shall be shown the amount of the funds available to meet the capital and recurring cost of the project either from current revenue, or by way of loan from the district board, or from any other source.

(2) The Sanitary Board, after considering the project, shall forward it to the Local Self-Government Department for administrative approval, with such recommendations as they may think fit, and, in the case of schemes relating to local areas under the control of two or more union boards, with proposals for the distribution of the costs.

(3) In the case of a scheme the total estimated cost of which is less than Rs. 10,000, not being part of a larger scheme, or one for which financial assistance from Local Government is required, the administrative approval of Local Government shall not be necessary; but the Chief Engineer shall be consulted, and the scheme, with a copy of the Chief Engineer's opinion on it, shall be submitted through the district board to the Commissioner of the Division for approval.

4. *Conditions precedent to obtaining administrative approval of Government to a project.*—In order to obtain the administrative approval of the Local Government to any such project, the union board shall satisfy the Local Government—

(1) that the cost of maintenance of the projected work can be met by the union board from revenue;

(2) that any loan required to meet the cost of the work will be granted by the district board; and

(3) that the work can be done effectually in the manner and for the cost proposed.

5. *Procedure after grant of administrative approval; Preparation of detailed plans and estimates.*—(1) When the administrative approval of the Local Government or the Commissioner of the Division, as the case may be, has been obtained to any such project, and in no case before, except with the previous sanction of the Local Government or the Commissioner as the case may be, the union board may arrange for the preparation of detailed plans and estimates, and for this purpose may—

(*a*) apply for the services of the Chief Engineer; or

(*b*) with the previous sanction of the Chief Engineer—

(*i*) entrust the work to a private firm; or

(*ii*) apply to the district board for the services of the District Engineer; or

(*iii*) cause the plans and estimates to be prepared by an officer specially appointed for the purpose, subject to the selection of such officer being approved of by the Chief Engineer, who shall first satisfy himself that the officer is fully qualified for the work in question.

(2) In case (*a*) referred to in sub-rule (*1*), application shall not be made for the preparation of plans and estimates for alternative schemes, unless the union board at the same time undertakes to pay for each such scheme the fees laid down in rule 29.

Note.—Revision by the Chief Engineer on his own initiative of plans and estimates previously prepared by him with a view to effect economy or improvements, does not amount to the preparation of an alternative scheme for the purpose of this rule.

(3) In case (*b*) referred to in sub-rule (*1*), the plans and estimates, while in course of preparation, shall be subject to examination by and control of the Chief Engineer.

6. *Submission of detailed plans and estimates for final sanction.*—(1) The detailed plans and estimates shall, on completion, be forwarded in duplicate to the Sanitary Board through the district board and through

the Commissioner of the Division, or for final sanction to the Commissioner of the Division through the district board as the case may be, together with a report on the state of public feeling in regard to the scheme, and in the latter case, also with a copy of the Chief Engineer's opinion on the scheme as finally drawn up.

(2) In the case of drainage schemes the estimates shall be submitted in forms to be obtained from the office of the Chief Engineer.

(3) When the scheme has not been prepared in the office of Chief Engineer, it shall be accompanied by full details of the calculations of the size and strength of the various works and complete information as to the prices on which the estimates have been framed.

(4) The Sanitary Board shall submit the scheme forwarded to it under sub-rule (1) to the Local Self-Government Department for final sanction, with an expression of their opinion on its merits as finally drawn up.

7. *Submission of proposals for rules regulating house connections.*—If such project is drawn up with the intention of allowing house connections, the union board shall, within three months of submitting the detailed plans and estimates under rule 6, submit proposal for rules regulating house connections to be framed by Local Government under section 101.

8. *Commencement of work.*—No work shall be commenced on the project, nor shall any agreement be entered into in respect thereof, until the detailed plans and estimates have received the final sanction of the Local Government or the Commissioner of the Division, as the case may be.

9. *Sanction to heavy excesses over detailed estimates.*—If at any time during the progress of the work the union board has reason to anticipate that the sanctioned detailed estimate will be exceeded by more than 10 per cent., or if it shall at any time appear to the union board that the sanctioned detailed scheme will require material alteration, the union board shall forthwith submit through the district board to the Local Government or the Commissioner of the Division, as the case may be, for approval a revised scheme with revised estimates and plans.

The revised estimates and plans shall be prepared—

(*a*) in the case of schemes prepared and carried out by a firm of engineers or by an engineer specially appointed for the purpose under rule 5 (1) (*b*) (*i*) or 5 (1) (*b*) (*iii*) and rule 11 (2) (*a*), by the firm of engineers or the engineer so appointed, and shall be scrutinized by the Chief Engineer;

(*b*) in the case of schemes prepared and carried out by the District Engineer under rules 5 (1) (*b*) (*ii*) and 11 (2) (*b*), by that officer and shall be scrutinized by the Chief Engineer;

(*c*) in all other cases, by the Chief Engineer.

10. *Taking over of complete supervision and control by Chief Engineer.*—(1) The Chief Engineer shall have complete supervision and control of the carrying out of all schemes of water-supply, sewerage, and drainage towards which the Local Government may make a grant amounting to Rs. 50,000 or more, or to half the total cost of the scheme, or more. The union board shall undertake to pay the fees specified in rule 31 before work on the scheme is begun.

(2) In other cases the union board may request the Chief Engineer to take over supervision and control of the work, and on the union board undertaking to pay the fees specified in rule 31, the Chief Engineer, shall, if he considers that he can do so without detriment to the public service, take over such supervision and control.

(3) Works of which the complete supervision and control are taken over by the Chief Engineer, under sub-rule (1) or sub-rule (2) are to be considered as contribution works and shall be carried out by the Engineering Branch of the Public Health Department under the rules regarding such works in paragraphs 210 to 214 of the Bengal Public Works Department Code (1st edition), except that the provision made in the code for establishment, etc., will be covered by the fees specified in rule 31 hereof, or shall be met by the union board by payment of such fees as the Local Government may, from time to time, prescribe.

(4) In addition to the above fees the union board shall bear all law charges on behalf of the Local Government in any suits brought by contractors or others in connection with the execution of any project under this rule:

Provided that no charge shall be payable by the union board under sub-rule (4), if, in the opinion of the Local Government, the suit is due to the malfeasance or negligence of the Chief Engineer, or an officer subordinate to him.

11. *Conditions as to detailed engineering supervision.*—(1) Where the projected work is estimated to cost Rs. 10,000 or more, adequate provision for detailed engineering supervision shall be a condition precedent to the grant of final sanction by the Local Government.

(2) In the absence of special sanction to the contrary, one of the following arrangements shall be made:—

(*a*) that the work be carried out under the supervision of an engineer, specially employed for the purpose, assisted by an adequate establishment of properly qualified overseers, the name and qualifications of the engineer having been previously submitted to the Chief Engineer, and approved by him; or

(*b*) that, with the previous approval of the Chief Engineer, arrangements be made with the district board for the carrying out of the work under the supervision of the District Engineer and his staff; or

(*c*) that the work be carried out under the complete supervision or control of the Chief Engineer, in the manner provided in rule 10.

(3) In the case referred to in sub-rule (2) (*a*) and (*b*), the work while in progress shall be subject to inspection by and control of the Chief Engineer.

12. *Report by union board to the Commissioner in case of small work.*—Where the estimated cost of work amounts to less than Rs. 10,000 the union board shall report, for the information of the Commissioner of the Division, the agency by which it is proposed to have such work carried out, and shall follow the instructions issued by the Commissioner in the matter.

Tenders and Contracts.

13. *Procedure to be followed in case of other works.*—In the case of works carried out under rule 11 (2) (*a*) and (*b*) the procedure provided by rules 14 to 25 shall be followed.

14. *Preparation of drawings, specifications, forms of tender, etc.*—When requested by the union board, the Chief Engineer, shall, subject to the payment of the fees mentioned in rule 29, prepare working or contract drawings, specifications, estimates, bills of quantities, forms of tender, or other documents or plans required for the execution of sanitary

engineering works which have been duly sanctioned and which are to be let out by contract, as well as forms of advertisement inviting tenders for such works.

15. *Approval of Chief Engineer to drawings, specifications, forms of tender, etc.*—When drawings, specifications, bill of quantities, forms of tender, and other documents or plans referred to in rule 14 are not prepared by the Chief Engineer, such drawings, specifications, bills of quantities, forms of tender and other documents or plans, shall be submitted to him for approval in writing before tenders for the contract of such work are advertised in newspapers.

Note (*i*).—The terms of a contract shall be precise and definite and there shall be no ambiguity or room for misconstruction therein.

Note (*ii*).—When necessary, legal and financial advice shall be taken in regard to the nature and form of a contract before it is finally accepted.

Note (*iii*).—The standard form of a contract shall be adopted, wherever possible, and its terms shall be adequately scrutinized before it is finally accepted.

Note (*iv*).—Provision shall be made in contracts for safeguarding properties belonging to the Government or local bodies when such properties are entrusted to a contractor.

16. *Advertisements inviting tenders.*—Every advertisement for tenders shall be published in one or more newspapers and shall briefly describe the works required to be carried out, and state the place or places where plans and drawings can be seen, and copies of the specifications and forms of tender can be obtained, the deposit to be paid by any person making a tender, and the date and hour up to which tenders will be received.

17. *Approval of plans, drawings, specifications, forms of tender, etc., by the union board.*—All plans, drawings, specifications, bills of quantities, forms of tender and advertisements shall be formally approved by the members of the union board in meeting. Whenever the union board desires to make any alteration in any one of such documents, the Chief Engineer, shall be informed and his advice obtained with regard to such alteration.

18. *Submission and receipt of tenders.*—All tenders shall be submitted in sealed covers addressed to the President of the union board, who shall attend in person at the office of the union board, or at any other place to which it has been directed that tenders shall be forwarded, at the latest hour specified in the advertisement for the receipt thereof. Any tender received after such hour shall not be considered.

19. *Opening and numbering of tenders.*—The President of the union board shall himself open the tenders, shall number each tender, and shall note thereon the exact time at which it was opened.

20. *Checking and scrutiny of tenders.*—After the tenders have been opened, they shall be—

(*i*) sent to the Chief Engineer; or

(*ii*) in the case of works carried out under rule 11 (2) (*a*) under the supervision of an engineer approved by the Chief Engineer, as being competent to advise on these questions, handed, to that officer; or

(*iii*) in the case of works carried out under rule 11 (2) (*b*) under the supervision of the District Engineer, handed to that officer,

for check and scrutiny:

Provided that, in case (*ii*) or (*iii*) the engineer employed by the union board or the District Engineer, as the case may be, shall, in case of difficulty or uncertainty, consult the Chief Engineer.

21. *Return of tenders after check and scrutiny.*—The Chief Engineer, or the engineer employed by the union board, or the District Engineer, as the case may be, shall, after checking and scrutinizing the tenders, return them to the union board with his remarks and recommendations.

22. *Consideration of tenders.*—The members of the union board shall in a meeting consider the tenders when checked and scrutinised under rule 20, and either accept one of them provisionally or, if necessary or desirable, refer the matter to the Chief Engineer for advice.

23. *Acceptance of tender.*—No tender shall be accepted which is not in order, is not fully priced out, and is not in every way in accordance with the instructions contained in the advertisement inviting such tenders. Any alteration or reduction in a tender made by the person making the tender after the same has once been submitted shall (except in the case of a palpable arithmetical error) at once render the tender out of order. In cases where the lowest tender is not accepted the reasons for such non-acceptance shall be recorded, and in provisionally accepting a tender the financial status of the contractor shall be taken into consideration in addition to all other relevant matters.

24. *Discharge of tenders and advertisement for fresh tenders.*—If it is found that none of the tenders submitted is satisfactory, or if for any reason it is believed that the conditions of submitting tenders have not been properly understood, so that fair tenders have not been received, all such tenders shall be discharged and fresh tenders shall be advertised for.

25. *Provisional acceptance and submission of tenders to the Chief Engineer.*—After a tender has been provisionally accepted, it shall be submitted to the Chief Engineer, for final approval, together with all other tenders received for the work, and until such approval has been received no tender shall be finally accepted by the union board:

Provided that, in case of a difference of opinion between the union board and the Chief Engineer, in regard to the acceptance of a particular tender, the matter shall, if the union board so desires, be referred to the Chief Engineer, Roads and Buildings, whose decision shall be final and binding on all parties.

26. *Placing and acceptance of contracts.*—Whenever practicable, contracts shall be placed only after tenders have been openly invited. Even in cases where a formal written contract is not made, no orders for supplies shall be placed without a written agreement as to the price of the articles supplied. No contract involving an uncertain and indefinite liability, or containing any condition of an unusual nature, shall be accepted without the previous consent of the competent financial authority. The terms of the contract, once accepted, shall not be materially varied without the previous consent of such authority.

27. *Bengal Public Works Department Code to apply to certain works.*—Works carried out under the complete supervision or control of the Chief Engineer under rule 11 (2) (*c*) shall be governed *mutatis mutandis* by the rules contained in paragraphs 175 to 180 of the Bengal Public Works Department Code (1st edition), and the Chief Engineer shall have the power of accepting tenders up to the limit of estimates sanctioned by Government.

28. *Examination of contracts by audit authorities.*—The audit authorities shall have power to examine contracts and to bring before the Public Accounts Committee any cases where competitive tenders have not been called for, or where high tenders have been accepted, or where other irregularities in procedure have come to light.

Fees.

29. *Fees.*—The fees mentioned in column 2 of the following table shall be payable by a union board for the services of the Chief Engineer specified in column 1 of that table:—

Note 2.—These fees shall be included in the estimates and recovered by debit to the works as a first charge on the scheme.

Note 3.—The union boad shall pay these fees in cash in accordance with the procedure laid down in article 426 of the Audit Code, if it abandons the detailed scheme at any time, or if, after budget provision has been made for the purpose, it is unable to commence the work within six months, or such longer period as the Local Government may be pleased to allow, of the final sanction of the scheme.

30. *No charge for services of the Chief Engineer, or his assistants for preparation of sketch of project.*—When the preparation of the sketch of a project is undertaken or supervised by the Chief Engineer under rule 2 no charge shall be made for his services or for those of his assistants, or for the services of Government surveyors, draftsmen and tracers engaged in such work, and drawing materials and instruments required for such work shall be provided at Government expense:

Provided that the union board shall render all reasonable assistance on the spot in supplying survey coolies and survey pegs and in fixing bench-marks, etc., and shall pay the actual cost of the same and the union board shall also, in each case, provide a suitable office properly furnished for the use of the Government surveyors and draftsmen.

8. The Inspector may require the occupier or the manager of a factory to properly file and exhibit to him any certificate, order, letter, report, or other document issued by an Inspector or other officer duly appointed in this behalf by the Government or by a local authority with respect to the fitness or safety of the factory or any portion of its buildings, works, plant, machinery, apparatus, or ways, or with respect to the fitness of persons employed in the factory.

Provided that, in any factory or part thereof, if the Inspector is of the opinion that lime-washing, colour-washing, painting or varnishing as required by this rule, is unnecessary to satisfy the requirements of section 13, he may, by order in writing, exempt such factory or any portion thereof, from the provisions of this rule.

20. The manager of every factory not exempted under the proviso to rule 19 shall maintain a register in Form No. 4 in the schedule annexed to these rules showing the dates on which the different parts of the factory have been lime-washed, colour-washed, painted or varnished.

21. No rubbish, filth or debris shall be allowed to accumulate or to remain on the premises of a factory or within the precincts thereof, in such a position that effluvia or any other nuisance therefrom can arise within the factory.

22. The floors of the rooms of a factory and the precincts surrounding a factory shall be kept in a strictly sanitary and cleanly condition, and all drains carrying waste or sullage water shall be constructed in masonry or other impermeable material.

23. The area around the place where drinking water is supplied to the operatives shall be maintained in a clean and drained condition.

24. Every factory shall be provided with latrine and urinal accommodation on the following scale :—

(1) In factories where females are employed there shall be one sanitary convenience for every 25 females.

(2) In factories where males are employed there shall be one sanitary convenience for every 25 males ; provided that in factories where the number of males employed exceeds 100 it shall be sufficient if there is one sanitary convenience for every 25 males up to the first 100, and one for every 50 thereafter.

Every factory in which the number of males employed exceeds 50 shall be provided with urinal accommodation on a scale which shall not be less than one place for every 100 males employed.

In calculating the number of conveniences required under this rule, any odd number of persons less than 25, 50 and 100, as the case may be, shall be reckoned as 25, 50 or 100.

25. (*1*) The design of every sanitary convenience in a factory shall be subject to the approval of the Director of Public Health, and its construction subject to the approval of the Chief Inspector.

(*2*) The site or situation of every sanitary convenience shall be such that no effluvia therefrom can arise within the rooms of the factory.

(*3*) No sanitary convenience shall communicate with any work room except through the open air or through an intervening air space.

(*4*) Every sanitary convenience shall be conveniently accessible to all persons employed in the factory during the periods of their employment.

(*5*) Every sanitary convenience in a factory shall be under cover and so partitioned off as to secure privacy, and if for the use of females shall have proper door and fastenings.

(*6*) Where persons of both sexes are employed, separate conveniences shall be provided for each sex and outside each latrine, at the entrace, there shall be displayed in a conspicuous position, an approved sign or a notice in the vernacular, clearly indicating the sex for which the latrine is provided. All latrines intended for females shall be so placed or so screened that the interior shall not be visible even when the door of any convenience is open, from any place where persons of the other sex have to work or pass, and, if the conveniences for one sex adjoin those for the other sex, the approaches shall be separate.

(*7*) Every sanitary convenience and urinal in a factory shall be kept in a clean and sanitary state, and shall be maintained in a manner approved by the Inspector.

26. In any factory in which the number of persons employed exceeds 500, hand-service latrines of the dry-bucket type shall not be permitted except with the previous permission of the Local Government. This rule shall take effect on and from the 1st January 1936.

27. Where septic tank latrines are installed :—

(*1*) A notice-board showing the maximum number of persons for whom the tank is designed shall be fixed in a prominent position on each latrine, and a register shall be maintained showing the number of users daily.

(*2*) An efficient automatic recording turnstile or turnstiles shall be provided for ensuring that the total number of users admitted on any day does not exceed the number of persons for whom the tank is designed.

(*3*) The effluent therefrom shall conform to such standards as the Local Government may prescribe by notification in the local official Gazette.

(4) For the satisfactory disposal of the sludge or other solid matters, a pit of cubical capacity equal to the total flow of not less than an hour shall be provided to receive the solid matter. When the pit becomes full, the valves shall be closed and the solid matter and slugde shall be allowed time to settle. After the effluent is drawn off and discharged after sterilisation, the solid matter and sludge shall be disposed of by either trenching or burning it.

Explanation.—In this rule "septic tank latrine" means a sanitary convenience of the septic tank type together with its filter beds, and also activated sludge latrines and aero-bacterial latrines.

28. An Inspector of Septic Tanks appointed by the Local Government may inspect any septic tank latrine or any part of it, and may collect samples of any effluent or effluents required by him.

CHAPTER V.

Ventilation and humidification.

29. In every factory, there shall be provided for each person employed at one time in any room a breathing space of at least 500 cubic feet. For the purpose of this calculation, no height above 15 feet from the floor of such room shall be taken into consideration.

30. The manager of every factory shall maintain a register in Form No. 5 in the schedule annexed to these rules showing the measurement and cubical content of each room in the factory, the cubic space in each room occupied by the machinery or other fixtures, and the area provided for ventilating openings.

31. Every part of every factory where persons are employed shall be adequately ventilated to the approval of the Inspector.

32. In all factories engaged in the manufacture of tea, hot air from any drying machine shall not be discharged into any room of the factory other than a withering room, but shall be directly conducted to the outer air or withering room by means of trunks or casings, and such trunks or casings shall be effectively lagged with non-conducting material.

33. There shall be no artificial humidification in any room of a cotton mill whenever the wet bulb reading of the hygrometer is higher than that specified in the following schedule in relation to the dry bulb reading of the hygrometer at that time; or as regards a dry bulb reading intermediate between any two dry bulb readings indicated consecutively in the schedule, when the dry bulb

reading does not exceed the wet bulb reading to the extent indicated in relation to the lower of those two dry bulb readings :—

Provided however that this rule shall not apply when the difference between the wet bulb temperature as indicated by the hygrometer in the department concerned, and the wet bulb temperature taken with a hygrometer outside in the shade is less than 3·5 degrees.

34. No steam shall be used for the purpose of producing artificial humidification in any department of a cotton mill the dry bulb temperature of which exceeds 85 degrees.

35. The pipes used for the introduction of steam into the atmosphere in any department of a cotton mill shall, so far as they are within the department, be as small, both in diameter and length, as is reasonably practicable and shall be effectively covered with non-conducting material to the satisfaction of the Inspector so as to minimise the amount of heat thrown off by them into the department.

36. In all departments of cotton mill wherein artificial humidification is adopted, hygrometer shall be provided and maintained in such positions as are approved by the Inspector. The number of hygrometers shall be regulated according to the following scale :—

(*a*) *Weaving Department.*—One hygrometer for departments with less than 500 looms, and one additional hygrometer for every 500 or part of 500 looms in excess of 500.

(*b*) *Other Departments.*—One hygrometer for each room of less than 300,000 cubic feet capacity, and one extra hygrometer for each 200,000 cubic feet, or part thereof, in excess of this :

Provided also that one hygrometer shall be provided and maintained outside each cotton spinning and weaving factory wherein artificial humidification is adopted, and in a position approved by the Inspector, for taking hygrometer shade readings.

37. When satisfied that the limits of humidity allowed by the schedule to rule 33 are never exceeded, the Inspector may, for any department other than the Weaving Department, grant exemption from the provision and maintenance of the hygrometer. The Inspector shall record such exemption in Form No. 6 in the schedule annexed to these rules.

38. A legible copy of the schedule to rule 33 shall be affixed near each hygrometer.

39. At each hygrometer maintained in accordance with rule 36 correct wet and dry bulb temperatures shall be recorded thrice daily during each working day by competent persons nominated by the manager and approved by the Inspector. The temperatures shall be taken between 7 a.m. and 9 a.m., between 11 a.m. and 2 p.m. (but not in the rest interval), and between 4 p.m. and 5-30 p.m. In exceptional circumstances, such additional readings and between such hours as the Inspector may specify shall be taken. The temperatures shall be entered in a Humidity Register in Form No. 7 in the schedule annexed to these rules maintained in the factory. At the end of the each month the persons who have taken the readings shall sign the register and certify the correctness of the entries. The register shall always be available for inspection by the Inspector.

40. (*1*) Each hygrometer shall comprise two mercurial thermometers one wet bulb and another dry bulb and both of similar construction, and equal in dimensions, scale and divisions of scale. They shall be mounted on a frame with a suitable reservoir containing water.

(*2*) The wet bulb shall be closely covered with a single layer of muslin, kept wet by means of wick attached to it and dipping into the water in the reservoir. The muslin covering and the wick shall be suitable for the purpose, clean and free from size or grease.

(*3*) No part of the wet bulb shall be within 3 inches of the dry bulb or less than 1 inch from the surface of the water in the reservoir and the water reservoir shall be below it, on the side of it away from the dry bulb.

(*4*) The bulbs shall be spherical and of suitable dimensions and shall be freely exposed on all sides to the air of the room.

(*5*) The bores of stems shall be such that the position of the top of the mercury column shall be readily distinguishable from a distance of 2 feet.

(*6*) Each thermometer shall be graduated so that accurate readings may be taken between 50 and 120 degrees.

(*7*) Every degree from 50 degrees up to 120 degrees shall be clearly marked by horizontal lines on the stem ; each fifth and tenth degree shall be marked by longer marks than the intermediate degrees and the temperature marked opposite each tenth degree, *i.e.*, 50, 60, 70, 80, 90, 100, 110 and 120.

(*8*) The markings as above shall be accurate, that is to say at no temperature between 50 and 120 degrees shall the indicated reading be in error by more than two-tenths of a degree.

(*9*) A distinctive number shall be indelibly marked upon each thermometer.

(*10*) The accuracy of each thermometer shall be certified by the National Physical Laboratory, London, or by a competent authority appointed by the Local Government, and such certificate shall be attached to the Humidity Register.

41. Each thermometer shall be maintained at all times during the period of employment in efficient working order, so as to give accurate indications and in particular :—

(*a*) The wick and the muslin covering of the wet bulb shall be renewed once a week.

(*b*) The reservoir shall be filled with water which shall be completely renewed once a day. The Chief Inspector may prescribe the use of distilled water or pure rainwater in any particular mill or mills in certain localities.

(*c*) No water shall be applied directly to the wick or covering during the period of employment.

42. If an Inspector gives notice in writing that a thermometer is inaccurate, it shall be replaced by another of certified accuracy within one month of the date of such notice, unless after examination by the competent authority specified under sub-rule (*10*) of rule 40, a fresh certificate of accuracy has been obtained within that time, in which case the new certificate shall be attached to the Humidity Register.

43. (*1*) No hygrometer shall be affixed to a wall, pillar or other surface unless protected therefrom by wood or other non-conducting material at least half an inch in thickness and distant at least one inch from the bulb of each thermometer.

(*2*) Each hygrometer shall be so mounted that the accuracy of the dry bulb temperature shall not be affected by the proximity of water in the reservoir.

44. No readings shall be taken for record on any hygrometer within 15 minutes of the renewal of water in the reservoir.

45. (*1*) In every factory a supply of water fit for drinking, and consisting of at least as many gallons as there are persons employed in the factory, shall be provided daily free of cost.

(*2*) Such supply shall be derived either from a public or private supply of efficiently filtered drinking water, or from one or more wells or specially reserved tanks so situated as not to be possible of pollution or contamination by organic matter or other impurities.

(*3*) When the drinking water is obtained from an intermittent public water-supply, each factory shall be provided with a storage of water of not less than one gallon per head of persons employed.

(*4*) The Inspector or any other persons authorised by the Local Government in this behalf may, at any time, in order to satisfy himself that the water supplied is fit for drinking, take samples for analysis.

46. In every factory in which any process involving contact by the workers with lead or any other injurious or obnoxious substances is carried on, there shall be provided and maintained in a cleanly state and in good repair for the use of all persons employed in such process, the following :—

(*1*) (*a*) A trough with a smooth impervious surface fitted with a waste-pipe without plug, and of such length as to allow at least two feet for every five such persons employed at any one time, and having a constant supply of water from taps or jets above the trough at intervals of not more than two feet ; or

(*b*) at least one wash-basin for every five such persons employed at any one time, fitted with a waste-pipe and plug and having a constant supply of water laid on.

(*2*) A sufficient supply of soap and a nail brush at each tap, jet or wash-basin.

47. In every factory in which washing facilities in accordance with the requirements of rule 46 are provided for persons employed in any process involving contact with lead or any other injurious or obnoxious substance, each such worker shall be allowed, for washing, before each of his rest

intervals and before the end of his day's work, at least ten minutes in addition to his specified rest intervals, and a notice to this effect shall be affixed in a conspicuous position in each department concerned.

CHAPTER VI.

Safety.

48. In every factory, all buildings, walls, chimneys, masts, bridges, tunnels, roads, galleries, floors, platforms, stagings, and all structures, whether of a permanent or temporary character, shall be so designed, constructed and maintained as to involve no danger to human life or safety :

Provided that the Inspector shall not accept any such structure if it is designed or constructed so as to contravene the provisions of any other Act.

49. In every factory, where, within the precincts, there are railways, or other electrical or mechanical means of transport, such railways or means of transport shall be designed, maintained and operated in such a manner as to satisfy the Inspector that there is no danger to human life and safety from them :

Provided that the Inspector shall not accept any such railways or means of transport if they are so designed, maintained and operated as to contravene the provisions of any other Act.

50. Every opening, in the ground or in a floor, which by reason of its depth, situation, construction or contents, could cause personal injury, shall be securely fenced.

51. In every factory, prime movers or other machinery, steam-boilers or other vessels subject to pressure, electrical equipment, and all tanks and mains, together with the fittings of each of the aforesaid, shall be free from structural defects so that there may be no danger to human life or safety. They shall also be maintained sufficiently free from deterioration, and shall be operated (or attended) by persons of sufficient experience and skill, to satisfy the Inspector that there is no danger to human life or safety from them :

Provided that the Inspector shall not accept any plant or machinery mentioned which is constructed, attended to or operated, so as to contravene the provisions of any other Act.

52. (*1*) In every factory, all moving parts of machinery shall be securely fenced or guarded, unless they are so situated that they are in the opinion of the Inspector incapable of causing injury to workers.

(*2*) All fencing and guards shall be strong and rigid and constructed to the approval of the Inspector.

(3) All fencing shall be so placed that it is impossible for any person to pass between the fencing and the moving part and shall also prevent contact of any person or his clothing with the moving machinery :

Provided that if a machine contains a safety device which (*a*) makes it impossible to expose a dangerous part of machinery whilst in motion or (*b*) stops the machine forthwith in case of danger, the machine shall be deemed to be securely fenced, if such devices are fitted and maintained in efficient working order.

53. If in any case it is represented to the Inspector and agreed to by him in writing that fencing would unduly obstruct or interfere with a manufacturing process, or would otherwise be impracticable, such other protection or other measure as the Inspector may direct, shall be provided instead of fencing.

54. Suitable striking gear or other efficient mechanical appliances shall be provided and used to move driving belts on fast and loose pulleys and any such gear or appliances shall be so constructed as to prevent accidental restarting of the machinery :

Provided that where the Chief Inspector is satisfied that such striking gear or appliances are not necessary or are impracticable for any class of machines, he may by order in writing exempt such class of machines from this requirement.

55. In every factory all electrical equipment shall be sufficient in size and power for the work it is called upon to do and so constructed, installed, protected, worked, and maintained as to prevent danger to human life and safety :

Provided that where automatic mechanism is installed which renders "dead" any electrical equipment on the occurrence of danger, such mechanism shall be taken into account by the Inspector when considering the adequacy or otherwise of the protection furnished :

Provided also that in no case shall the Inspector accept as adequate any conditions or combination of conditions which are subject to objection under any other Act.

56. When any plant, machinery, apparatus, or fittings in a factory are not safeguarded from danger to human life, and safety, as laid down in rules 52, 53, 54 and 55, such plant, machinery, apparatus or fittings shall be deemed not to be adequately fenced within the meaning of sub-section (*1*) of section 24 of the Act.

57. (*1*) All important pulleys shall be provided with belt hangers or perches.

(*2*) Every person who goes to replace a driving belt or to oil bearing or shafts, or to work at a height near moving parts of machinery not normally dangerous by reason of that height, shall wear tight trousers, and shall not wear any loose clothing. A dhoti or loin cloth wrapped round the body in any manner shall be deemed to be loose clothing within the meaning of this rule.

(*3*) Removing, replacing or adjusting of fast running driving belts shall be done only by experienced men specially trained for the work.

(*4*) When the main belts of any machinery have to be adjusted the machinery shall be stopped and shall not be set in motion again until such belts have been completely adjusted.

(*5*) All ladders used in removing, replacing, or adjusting driving belts, and in the oiling and attending to overhead shafting, shall be provided with hooks or an effective non-skid device.

(*6*) Where required by the Inspector, service platforms and gangways shall be provided for overhead shafting.

58. In every factory where the process of manufacture necessitates the use of inflammable material, efficient means of subduing outbreaks of fire shall be installed, maintained and kept ready for immediate use.

59. The manager of every factory shall cause to be exhibited, in English and in the language of the majority of the operatives, a notice prohibiting smoking or the use of naked lights, or both, in all places where they would be dangerous, or where the Inspector may require, and shall take all other reasonable precautions against fire.

60. When in any factory there occurs any explosion, fire, collapse of buildings or serious defects in the machinery or plant, which might have caused or might cause injury to persons, such occurrence shall be reported by the manager of the factory within five hours of its occurrence to the authorities mentioned in clauses (*1*) and (*2*) of rule 61.

CHAPTER VII.

Accidents.

61. *Fatal and Serious.*—When there occurs in any factory an accident to any person which results in (*a*) death, or (*b*) such injury that there is no reasonable prospect that he will be able to resume his employment in the factory within 20 days, such accidents shall be called in all prescribed communications "Fatal" or "Serious" as the case may be, and a notice of the occurrence shall be sent forthwith by the manager of the factory either by telephone, or telegram or special messenger to—

(*1*) the Inspector notified for this purpose,

(*2*) the District Magistrate, and

(*3*) in the case of fatal accidents only, the Officer-in-charge of the Police Station within the local limits of which the factory is located.

Reports sent by special messenger shall be in Form No. 8 in the schedule annexed to these rules and those sent by telephone or telegram shall be confirmed by a written report in that form.

62. *Slight.*—When there occurs in any factory an accident to any person less serious than those described in rule 61, but which prevents or is likely to

prevent the person from resuming his employment in the factory within 48 hours after the accident occurred, such accident shall be recorded by the manager of the factory and reported by him in Form No. 8 in the schedule annexed to these rules as soon as practicable, but in any case within 60 hours of its occurrence, to the authorities mentioned in clauses (*1*) and (*2*) of rule 61. Such accidents shall be called in prescribed communications "Slight accidents".

63. (*1*) When an accident which has been reported to the Inspector as either "Serious" or "Slight" afterwards proves to be "Fatal", the manager of the factory shall make the necesary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (*1*), (*2*) and (*3*) of rule 61.

(*2*) When an accident which has been reported to the Inspector as "Slight" afterwards proves to be "Serious", or when one reported as "Serious" afterwards proves to be "Slight", the manager of the factory shall make the necessary correction in a supplementary report which shall be sent forthwith to the authorities mentioned in clauses (*1*) and (*2*) of rule 61.

64. Where loss of life has immediately resulted from an accident, the place where the accident occurred shall be left as it was immediately after the accident, until the expiration of at least three days after the sending of the notice of the accident required under rule 61, or until the visit to the place by an Inspector, whichever first happens, unless compliance with this rule would tend to increase or continue the danger or would seriously impede the carrying on of business at the factory.

65. In every factory the following requirements shall have effect :—

(*1*) There shall be provided and maintained so as to be readily accessible a first-aid box or cupboard of the standard laid down in rule 66, and where more than one hundred and fifty persons are employed, an additional box or cupboard for every additional one hundred and fifty persons.

The number of first-aid boxes or cupboards required under this provision shall be calculated on the largest number of persons employed at any one time, and fractions of one hundred and fifty shall be reckoned as one hundred and fifty. Where the persons employed are employed in shifts, the calculation of the number employed shall be according to the largest number at work at any one time.

(*2*) Nothing except appliances or requisites for first-aid shall be kept in a first-aid box or cupboard.

(*3*) Each first-aid box or cupboard shall be distinctively marked with a white cross on a red ground.

(*4*) Each first-aid box or cupboard shall be placed under the charge of a responsible person who shall always be readily available during working hours. A notice shall be affixed in every work-room stating the name of the person in charge of the first-aid box or cupboard provided in respect of that room :

Provided that if a hospital, ambulance room or dispensary is provided at the factory and such arrangements are made as to ensure the immediate treatment there of all injuries occurring in the factory, the Chief Inspector may by certificate exempt the factory from the requirements of this rule to such extent and subject to such conditions as he may specify in the certificate.

66. Each first-aid box or cupboard required under rule 65 shall contain at least :—

(*1*) For factories employing fifty persons or less :—

Provided that items (*x*) to (*xv*) inclusive need not be included in the standard first-aid box or cupboard where there is a properly equipped hospital, ambulance room or dispensary, or if at least one box containing such items placed and maintained in accordance with the requirements of rule 65 is separately provided.

CHAPTER VIII.

Working Hours, Registers, etc.

67. The following shall apply to the notice of periods for work for adult and child workers employed in a factory :—

(*1*) Where periods for work are fixed in accordance with sub-section (*3*) of section 39 or sub-section (*2*) of section 55, the notice shall be in Form No. 10A in the schedule annexed to these rules.

(*2*) Where periods for work are fixed in accordance with sub-sections (*4*) and (*5*) of section 39 or sub-section (*2*) of section 55, the notice or notices shall be in Form No. 10B in the schedule annexed to these rules.

(*3*) Where periods for work are fixed in accordance with sub-sections (*4*) and (*6*) of section 39 or sub-section (*2*) of section 55, the notice or notices shall be in Form No. 10C in the schedule annexed to these rules.

68. The following shall apply to persons employed in a factory on a Sunday in accordance with the provisions of section 35 :—

(*1*) Where all the workers of a factory are employed on a Sunday and the substituted day of holiday granted under section 35 is the same for every worker, the notice of periods for work required under sub-section (*1*) of section 39 shall be in Form No. 11A in the schedule annexed to these rules.

(*2*) Where all the workers of any group of workers in a factory are employed on a Sunday and the substituted day of holiday granted under section 35 is the same for every worker in the group, the notice of periods for work for the Sunday, required under sub-section (*1*) of section 39, shall be in Form No. 11B in the schedule annexed to these rules,

(*3*) Where the provisions of clauses (*1*) and (*2*) of this rule do not apply and any worker or workers are required to work in a factory on a Sunday, the notice of periods for work for such workers for the Sunday, required under sub-section (*1*) of section 39, shall be in Form No. 11C in the schedule annexed to these rules.

Explanation.—With regard to clauses (*1*) and (*2*) above, where the periods for work fixed for each group or groups, for the Sunday are the same as those fixed and displayed for such group or groups for the substituted day of holiday, a statement to this effect in Form No. 11A or Form No. 11B, as the case may be, shall be deemed to be in compliance with section 39. If, however, the periods for work for the Sunday of any group or groups are not the same as those fixed and displayed for the substituted day of holiday, the periods for work for the Sunday shall be fixed and displayed as required by section 39 and rule 67.

69. The notices of periods for work required under rules 67 and 68 shall be in bold type or in ink lettering and shall be posted in glazed frames or otherwise suitably protected from the effects of the weather to the satisfaction of the Inspector.

70. The following shall apply to the maintenance of the registers of adult and child workers employed in a factory :—

(*1*) Where workers are *not* employed on shifts the register of such workers shall be in Form No. 12A and Form No. 12B in the schedule annexed to these rules, for adult and child workers respectively. These registers shall be written up afresh on the first working day of each month, or, alternatively, on the first working day of the first complete week of each month.

(*2*) Where workers are employed on shifts the registers of such workers shall be in Form No. 12C and Form No. 12D in the schedule annexed to these rules, for adult and child workers respectively. These registers shall be written up afresh on the first working day of each week.

TREATMENT OF MINOR INJURIES.

A SCRATCH OR SLIGHT WOUND.

Treat every scratch or slight wound *immediately*.

Apply the Iodine Solution* over the broken surface *once* and allow to dry.

Do not attempt to wash the wound at all.

Apply a "*Sterilised Dressing*."† A bandage can be applied over this dressing if necessary. Do not touch the part of the sterilised dressing which is put next to the wound.

Blood poisoning or septic infection of a wound is caused by introducing germs into it. A sterilised dressing should, therefore, always be used as it is free from germs.

Iodine sterilises the wound and makes any dirt harmless.

Hands are never free from germs, and should never touch the wound or the part of the dressing to be applied to the wound.

A BURN OR SCALD.

Cover the injured part with a dry "Sterilised Burn Dressing."‡ *Note*—Ointment or oil, such as carron oil, should not be used for a First Aid Dressing. Carron oil is not sterile. Its use may also interfere with any subsequent treatment by a doctor or in the ambulance room.

Do not prick a blister, except under medical advice; it is no part of the First Aid Treatment.

AN ACID BURN.

Flood the burn with cold water.

Sprinkle it (after flooding) with powdered Bicarbonate of Soda.

Apply a "Sterilised Dressing" of suitable size.

Iodine should *never* be used for *Burns* or *Dermatitis*.

---

* A 2 per cent. solution of Iodine in Rectified Spirit B.P.

† "Sterilised Dressing." A dressing put up in a separate packet and rendered free from germs by a special process.

‡ "Sterilised Burn Dressing." A similar dressing as above prepared specially for burns.

EYE INJURIES.

Prevention is better than cure.

Therefore, if your work entails danger to the eyes, *wear goggles*. Goggles have saved hundreds of eyes; *thousands* have been lost for want of them.

A Foreign Body in the Eye.

Apply two or three eye drops* to the affected eye-ball.

Cover with an eye-shade.

Go to a doctor *at once*.

Do not try to remove any particle which cannot be brushed away.

Note.—The treatment recommended should be carried out *immediately*. The longer the delay the greater the risk of Blood Poisoning.

It is First Aid treatment and is not intended to replace any subsequent treatment which may be necessary by a doctor or in the ambulance room.†

---

* Eye Drops—

Cocaine	..	0·5 per cent.
Hyd. Perchlor. in castor oil	.. ..	1 in 3,000.

Instruction to chemist for making eye drops:—Weigh 95 grammes of castor oil into a flask capable of holding twice the quantity. Add 0·5 gramme of powdered cocaine. Warm on a water bath till dissolved. While the solution is still warm (but not hot) add one cubic centimetre of a solution containing 3·3 grammes of mercuric chloride in 100 cubic centimetres of absolute alcohol. Mix the solutions by rotating the flask.

About half an ounce, or 15 c.c., of this solution should be supplied in a bottle from the cork of which a camel-hair brush is pendent in the fluid.

First Aid boxes as obtained from the suppliers will nor contain the eye drops, as a cocaine preparation can only be dispensed under prescription from a registered medical practitioner. It will be necessary, therefore, for the factory manager to obtain a prescription from the Civil Surgeon or other registered medical practitioner, and to purchase the eye drops separately.

Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. RULES.

1. (*i*) A candidate who desires to be examined in India shall apply to be admitted to the examination before such date and in such form as the Public Service Commission may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only, for a like period.

(*ii*) In the case of Calcutta applications shall be submitted through the Commissioner of Police.

(*v*) No candidate shall make more than one application in respect of this examination.

(*vi*) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either:—

(*a*) a British subject of Indian domicile whose father (if alive) is a British subject or, a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India or a person in the permanent service of the Crown or a person who had retired from that Service; or

(*b*) a Ruler or a subject of a State in India.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

Provided also that a Ruler or a subject of a State in India cannot be appointed unless he has obtained the declaration required under section 96-A of the Government of India Act.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training at the Indian Military Academy, Dehra Dun. If such candidate is selected for admission, the parent or guardian will be required to covenant with the Secretary of State for India in Council that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces, and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the education of the cadet at the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers, in the Indian Army.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. A candidate who, after examination by a Medical Board, is found not to satisfy these requirements will not be accepted for admission to the Academy.*

* Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

9. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

10. (*a*) A candidate who competed in the examination held in October 1934, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in March/April, 1935, unless he is ineligible by age to compete at any later examination.

No candidate will be admitted to the Indian Military Academy who obtains less than 175 marks for Interview and Record or less than 578 marks in the other subjects taken by him in Parts I to III (these marks being 35 per cent. in each case) or less than 1,075 marks in all the subjects taken in Parts I, II and III.

14. A candidate who desires a commission in the Artillery, Engineers or Signals must take lower Mathematics and Physics at the entrance examination and obtain at least 40 per cent. of the maximum marks in each of these subjects; but a candidate who obtains less than 40 per cent. in one or both of those subjects will not thereby be disqualified for admission to the Academy if he obtains a sufficient aggregate of marks to qualify him under Rule 13, nor will he be ineligible for a commission in any branch of the Indian Army other than the Artillery, Engineers or Signals. Candidates who obtain the requisite 40 per cent. of marks will not necessarily be selected to attend the special technical classes at the Academy. Selection will be made by the Commandant during the progress of the course.

15. From the marks assigned to candidates in each subject such deduction will be made as the Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

16. If a candidate's handwriting is not easily legible a deduction, which may be of considerable amount, will be made on this account from the total marks otherwise accruing to him.

9. On receipt of the return referred to in clause 8, the Collector shall, after verification of the return of exports, if any, to places outside India, and such other enquiry as he may deem fit, assess the duty payable on mechanical lighters removed from the manufactory. WHEREAS it is expedient to amend the Bengal, Agra and Assam Civil Courts Act, 1887, in its application to Bengal in the manner hereinafter appearing; XII of 1887.

It is hereby enacted as follows :—

Short title, extent and commencement.

1. (*1*) This Act may be called the Bengal, Agra and Assam Civil Courts (Bengal Amendment) Act, 193 .

(*2*) It extends to the whole of Bengal.

(*3*) It shall come into force on such date as the Local Government may, by notification in the local official Gazette, appoint.

Application of Act.

2. The Bengal, Agra and Assam Civil Courts Act, 1887, hereinafter referred to as the said Act, shall, in its application to Bengal, be amended in the manner hereinafter provided.

Amendment of section 17.

3. In sub-section (*2*) of section 17 of the said Act, for the words and figures "in section 623 or section 649 of the Code of Civil Procedure" the words and figures "in sections 36, 37 and 141 of, and rule 1 of Order XLVII in Schedule I to the Code of Civil Procedure, 1908" shall be substituted.

6. In sub-section (*2*) of section 23 of the said Act,—

(*1*) in clause (*d*) for the words and figures "the Indian Succession Act, 1865, and the Probate and Administration Act, 1881" the words and figures "the Indian Succession Act, 1925" shall be substituted ; and

STATEMENT OF OBJECTS AND REASONS.

In Chapter VII of their Report the Civil Justice Committee recommended that, having regard to the improved capacity of the subordinate judicial officers and in the interests of efficiency and economy it would be desirable to amend the Civil Courts Act so that individual selected Munsifs of capacity and experience might be vested on the recommendation of the High Court with power to try original suits up to the value of Rs. 5,000 and that the Small Cause Court jurisdiction should be raised in the case of selected Munsifs and Subordinate Judges to Rs. 500 and Rs. 1,000, respectively. The present Bill has been drafted for the purpose of giving effect to these recommendations and the opportunity has been taken to introduce certain formal amendments for the purpose of bringing the Civil Courts Act up to date.

B. L. MITTER,
Member-in-charge.

CALCUTTA :
The 19th November, 1934.

Notes on Clauses.

Clauses 3, 4 and 8.—The proposed amendments substitute for references to the old Code of Civil Procedure the references to the corresponding provisions of the existing Code.

Clause 5.—Under the existing law the pecuniary jurisdiction of the selected Munsifs is limited to Rs. 2,000 only. The proposed amendment makes it possible to give effect to the recommendation of the Civil Justice Committee to raise the limit to 5,000 rupees.

Clause 6.—Sub-clause (*1*) substitutes the reference for the old Indian Succession Act, 1865 and the Probate and Administration Act, 1881 by the reference to the new Indian Succession Act, 1925.

Sub-clause (*2*).—As the practice of execution of civil decrees by the Collectors does not obtain in Bengal, clause (*e*) of section 23(*2*) is being repealed.

Clause 7.—It is proposed to raise the Small Cause Court powers of Subordinate Judges to Rs. 1,000 and of Munsifs to Rs. 500 in accordance with the recommendation of the Civil Justice Committee.

Biennial Resolution on the working of Union Boards during the years 1931-32 and 1932-33.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Local Self-Government (Local Boards).

CALCUTTA, THE 24TH NOVEMBER 1934.

RESOLUTION—No. 5392 L.S.-G.

Minister-in-charge: The Hon'ble Sir Bijoy Prosad Singh Roy, Kt.

During the biennium under review, the number of union boards rose from 4,510 to 4,701. Of the 191 new union boards formed during this period, 124 were in Bakarganj, and 52 in Rajshahi, the remainder being distributed among the districts of Mymensingh, Faridpur and Khulna.

Franchise.—The number of voters on the union board electoral rolls rose from 2,366,199 in the year 1930-31 to 2,435,342 in 1931-32 and to 2,570,800 in 1932-33. The total number of members of union boards increased from 40,241 in 1930-31 to 41,921 in 1932-33. In most cases the elections were conducted smoothly and they aroused keen interest.

It is satisfactory to observe that the recent civil disobedience movement made little impression on these rural self-government institutions. On the contrary, the union boards would appear to have exerted a distinctly healthy and steadying influence. Generally speaking, there was much less political trouble in areas covered by union boards than in tracts where there was none. In a few union boards in the Burdwan, Bankura, Hooghly and Dinajpur districts, the elections were interfered with by anti-Government propaganda and recourse had to be taken to section 6(4) of the Village Self-Government Act. Even in these areas, however, the popularity of the union boards was amply evidenced by the large number of representations for appointment as members of union boards made to the District Officers and Commissioners throughout the period of the civil disobedience movement.

Financial statistics.—The total income of union boards excluding the opening balance rose from Rs. 82,10,000 in 1930-31 to Rs. 86,51,000 in 1931-32 and to Rs. 88,25,000 in 1932-33. Of this latter amount Rs. 66,46,000 was realised on account of union rates, Rs. 2,36,000 as rents of chaukidari chakran lands, Rs. 1,86,000 from pounds and ferries, and Rs. 1,96,000 and Rs. 2,80,000 respectively as grants from district boards under sections 33 and 45 of the Village Self-Government Act. During the year 1932-33 the total income derived from the union rate levied under section 37(*b*) of the Act increased by Rs. 99,000, while receipts under the chaukidari rate increased by Rs. 4·86 lakhs. The increase in the receipts under both these heads in the face of continued economic strain, affords striking evidence of the popularity of these village self-government institutions as well as of the continued growth of a spirit of practical self-help among the rural population.

The total expenditure of union boards rose from Rs. 85,18,000 in 1930-31 to Rs. 87,53,000 in 1931-32 and to Rs. 88,62,000 in 1932-33 of which Rs. 49,74,000, *i.e.*, more than half was spent on the chaukidars. Of the expenditure incurred in carrying out the miscellaneous purposes of the Act during the year 1932-33 about Rs. 6,11,000 were spent on roads (out of which original works represented about Rs. 2,21,000), Rs. 5,50,000 on water-supply, Rs. 1,32,000 on drainage and conservancy, Rs. 3,41,000 on schools and Rs. 1,26,000 on dispensaries. The most notable decrease in expenditure on works of public utility during 1932-33 was Rs. 83,000 on water-supply.

Individual activities of Union Boards.—As observed in the resolution for 1930-31, this review of the individual activities of union boards is not comprehensive, depending as it does on the divisional reports, some of which give more details of the activities of particular union boards than others. Besides those mentioned in this paragraph, therefore, there may be other union boards equally deserving which have not been mentioned in the divisional reports. The Lillooah union board spent Rs. 1,116 in 1931-32 for the construction of a new road and made public street lighting arrangements with electricity at an annual cost of Rs. 600 with effect from April 1931. The Domjur and Lillooah union boards (in Howrah district) collected Rs. 1,261 and Rs. 1,872 respectively in 1932-33 as subscriptions from the local public for metalling four roads. The Benapur, Basudebpur, Harishpur and Chandipur union boards (all in the Howrah district) spent considerable sums on drainage, the Benapur union board alone spending Rs. 1,412 in 1932-33 for the construction of the Birkul sluice. During the period under review the union boards of the Sadar subdivision of Howrah sank 60 and those of the Uluberia subdivision sank 35 tube-wells with the help of contributions from the rural water-supply grant placed by Government at the disposal of the Commissioner. The Sashaty union board (Howrah) excavated in 1932-33 a tank at a cost of Rs. 400 and paid for it entirely out of its own funds. Some union boards in the Howrah district sank tube-wells entirely out of their own funds in the year 1931-32 and of these Udainarainpur is reported to have sunk 6 tube-wells at a cost of Rs. 1,345. A number of union boards in the Burdwan district, notably Baghar, Narugram, Simulia, Pila, Bogpur and Kaichar, spent about Rs. 1,000 each on water-supply in 1932-33.

The two Biss type schools established by the Baikunthapur union board and another by the Atghoria board in the Burdwan district, worked well. The free lower primary schools at Raipur and Chhatna in the district of Bankura were maintained entirely by the union boards, while the Ajodhya union board (Bankura) maintained a free primary and music school, and the Dwarika (Bankura) union board maintained a free primary school for boys. The Krishnadevpur union board (Burdwan) continued to maintain a free primary school on a voluntary basis. In the Birbhum district 3 primary schools in the Sadar circle, 4 in the Dubrajpur and 5 in the Mollarpur circles were maintained by union boards, while the Ghursa union board maintained a girls' muktab, the Sainthia, Sultanpur, Chinpai and Hetampur union boards maintained girls' schools and the Sultanpur, Khoyrasole and Gohaliara union boards maintained night schools. In 1931-32 new dispensaries were started by the Bagnapara (Burdwan), Pakhanna (Bankura), Begampur (Hooghly), Maju (Howrah), Raninagar, Panchgram, Bardhanpur and Manikchak union boards (in Murshidabad district). Most of them received the Government subsidy of Rs. 250 or Rs. 500 a year according as the dispensary was a village or thana dispensary. The union boards at Krishnadevpur and Kandra (both in the Burdwan district) constructed buildings for such dispensaries. The Saltora union board (Bankura) started a leper clinic and spent Rs. 1,596 on dispensaries during the year 1932-33. In 1931-32 the Gupti union board (Tippera), and in 1932-33 the Hajiganj (Tippera) and Ramchandrapur (Tippera) union boards spent more than Rs. 2,000 each on works of public utility; while the Laksam union board in 1931-32 and the Hajiganj union board in 1932-33 (both in Tippera) realised under section 37(*b*) Rs. 1,115 and Rs. 1,190, respectively, for expenditure on such works. In the Noakhali district laudable arrangements were made in 1932-33 for conservancy, supply of filtered water and street lighting by the Banchhanagar union board. The Basikpur union board also in this district constructed a good motorable road, about two miles long, mainly with the help of local contributions. During 1932-33 several union boards in the district of Bogra made arrangements for conservancy and street lighting, and the Domar and Nilphamari union boards in Rangpur inaugurated street lighting in their respective towns. The Nilphamari and Saidpur union boards in Rangpur and the Ishurdi union board in Pabna continued to maintain systems of conservancy.

While appreciating the useful work done by these boards the Minister regrets to note that there were several instances of laxity in realising union rates resulting in delayed payments to chaukidars and dafadars, defalcations and irregular expenditure from union funds and inequitable imposition of union rates. He hopes that with the growth of administrative experience, the union boards will avoid such irregularities in future.

Working of Union Benches and Courts.—The reports from the districts show that union benches are gradually getting more popular. Their constitution is also being viewed with greater appreciation by the public. Substantial relief is reported to have been afforded to Magistrates by these benches in most of the districts. The total number of benches working in 1932-33 was 1,177 against 987 in 1931-32 and 888 in 1930-31. The number of cases dealt with by these benches in 1932-33 was 68,600, showing an increase of 8,321 over that of 1931-32. The union courts are reported generally to be gaining in popularity and affording an increasing measure of relief to the Munsifs in the majority of the districts. The total number of courts working during the year 1932-33 was 999 against 776 in the year 1930-31. The number of suits instituted in these courts in 1932-33 was 138,392, showing an increase of 24,634 over that of the previous year. Of the total number of applications for disposal under the proviso to section 88 of the Village Self-Government Act during the year 1932-33, 62 cases were either dismissed or not prosecuted; the lower courts' orders were confirmed in 186 cases, modified in 28 cases and reversed in 123 cases while 36 cases were remanded for retrial.

Relations between District Boards and Union Boards.—The relations between the district boards and the union boards were on the whole satisfactory. The financial assistance rendered by the district boards was, however, still meagre in some districts (*e.g.*, Murshidabad, Bankura, Mymensingh, Pabna). The total amount paid by district boards to union boards rose from Rs. 4,77,388 in 1930-31 to Rs. 5,12,882 in 1931-32, but fell to Rs. 4,76,924 during 1932-33. This latter sum included Rs. 1,96,444 paid to the boards under section 33 of the Village Self-Government Act for the management of institutions and works transferred to them by district boards. The total income received by union boards from pounds which is in effect a transfer of revenue from district boards to union boards fell from Rs. 2,07,983 in 1930-31 to Rs. 1,95,141 in 1931-32 and again to Rs. 1,82,853 at the end of the period under review. The proportion between the grants made by the district boards to union boards under section 45 of the Village Self-Government Act and the rates raised by union boards under section 37(*b*) of the Act continued to present the same extremes of variability as noticed in the resolution for 1930-31. At the one extreme the Birbhum District Board made grants of Rs. 3,753 only against Rs. 49,494 realised from union rates in 1932-33, while at the other the Khulna District Board made grants amounting to Rs. 36,630 against Rs. 16,863 only raised from union rates. Generally speaking, the union boards were satisfied with the grants made by district boards, but in certain cases there was a feeling that but for the compulsory provision of section 45 in the Act the district boards would have paid nothing at all.

The Minister has noticed with pleasure the encouraging movement initiated in certain districts for popularising the objects of the Village Self-Government Act by holding periodical conferences of presidents and members of union boards. He was also gratified to note the success of the first general conference of presidents of union boards held under his chairmanship in Calcutta in December 1931, and opened by His Excellency the Governor of Bengal. The conference, which was attended by over 100 presidents of union boards, aroused much interest and it is to be hoped that it will develop into a periodical feature of the local self-government system.

STATEMENT OF OBJECTS AND REASONS.

The Albert Victor Hospital for the treatment of Leprosy at Gobra is a State Hospital managed by a Board of Management under the Chairmanship of the Commissioner of the Presidency Division. The history of the Hospital goes back to the beginning of the 19th century, but the institution dates in its present form from the visit of Prince Albert to India in 1889, when a public subscription was raised to commemorate the visit and the funds were applied to establishing the Leper Asylum on a new basis under Government management. In pursuance of this decision the premises which had been constructed partly at the cost of Government and partly by public subscription were taken over by Government and the institution has since been maintained as a State Hospital financed from the budget of the Government of Bengal. At the same time there are several pre-existing Trust Funds which constitute a supplementary endowment for special branches of work.

2. There are many disadvantages in maintaining as a State Hospital an institution which makes so direct an appeal to public charity as a hospital for lepers. The result is to discourage charity which otherwise may be forthcoming for the improvement of the institution through the difficulty under the accounts rules of enabling the Hospital to benefit from General Endowments. At the same time the existence of miscellaneous Trust Funds allocated to special purposes at the Hospital has created difficulties of adjustment with Government expenditure. Finally, the Hospital has proved to be a centre for voluntary research work which would more conveniently be carried out at an institution managed by an independent Trust than in a departmental institution of Government. The Commissioner of the Presidency Division and the Board of Management have pressed for the institution to be placed on an independent basis.

3. For these reasons it is proposed to constitute the Albert Victor Hospital a Trust Fund Institution analogous to the Ranchi European Mental Hospital on a semi-independent footing as regards financial and administrative control, with a fixed grant from Government corresponding to the total average expenditure of Government on the institution in recent years.

4. It is expected that the adoption of this measure will stimulate and attract public charity towards the Hospital and it is hoped that the existing Trust Funds will form the nucleus of expanding endowments. In any case, the financial future of the institution on its present basis will be guaranteed by the statutory grant, while it acquires at the same time more independence of status.

5. The Bill closely follows the lines of the Ranchi Mental Hospital Act 1922 (XIII of 1922). Under the Bill the Board of Trustees on which Government are adequately represented is vested with the management of the institution and is given specific powers regarding land acquisition, maintenance of establishment, etc. The income of the Hospital has been specified, viz., a fixed annual grant from Government and the Calcutta Corporation totalling Rs. 67,000 together with contributions from municipalities, district boards, voluntary contributions from persons or associations, etc. The Hospital, as it now stands, has been brought into relation with sections 3, 5 and 16 of the Lepers Act 1898 (III of 1898). The present Bill preserves this relationship.

Member-in-charge.

STATEMENT OF OBJECTS AND REASONS.

The present Bill for the amendment of the Bengal Village Self-Government Act, 1919, owes its origin to the Conference of presidents of union boards held at the Town Hall, Calcutta, in December 1931, many of the recommendations of which have been embodied in it. Opportunity has also been taken to remove practical difficulties experienced in the working of the Act and to effect specific administrative improvements. The main features of the Bill are summarised below :—

(1) **Constitution.** The term of office of members of union boards has been extended from 3 to 4 years and provision has been made to bar the intervention of Civil Courts in election disputes, as has recently been done in the case of district and local boards and municipalities.

(2) **Franchise.**—With a view to widening the electorate, the minimum franchise qualifications have been lowered and educational qualifications have been included amongst the qualifications for the franchise.

Provision has been made on the lines of sub-section (2) of section 22 of the Bengal Municipal Act, 1932, to disqualify persons convicted of offences involving moral turpitude from being members of union boards.

(3) **Union Benches and Courts.**—On the recommendation of the Civil Justice Committee, power has been taken to confer on selected union courts and benches, subject to certain safeguards, exclusive jurisdiction in any or all classes of suits or cases triable by them. Provision has been made for the trial by a union bench of cases instituted by the inhabitants of a union where there is no bench. Power has also been taken by the Local Government to authorise selected union benches to impose fine up to Rs. 50 and in default imprisonment for a period not exceeding 14 days.

The power of union courts has been enlarged so as to enable them to try suits for damage by cattle-trespass.

Union benches have been empowered to allow cases to be compromised and to grant compensation out of the fine realised to complainants and also to release first offenders on probation of good conduct.

(4) **Industries.**—Union boards have been empowered to undertake and carry out measures for the improvement and development of cottage industries and to employ the requisite staff for the purpose.

(5) **Sanitation.**—Provision has been made for the prompt reporting of the outbreak of epidemic diseases within a union and for the payment of rewards to medical practitioners for making such reports. Union boards have also been authorised to employ a health staff either singly or jointly.

The provisions of section 34 relating to offensive and dangerous trades have been made applicable to all union boards.

(6) **Education.**—Provision has been made for the payment by a union board of grants-in-aid to primary schools and to agricultural and technical schools located within the union.

(7) **Control.**—As an alternative to supersession of a union board in case of incompetence or wilful neglect of duty, power has been taken for the Divisional Commissioner to dissolve a board and order a general election with the approval of the Local Government.

Under the existing law it is not possible to remove an undesirable member of a union bench or court without superseding the bench or court. Provision has been made for such removal.

(8) Some of the other changes which it is proposed to make in the existing law and consequential changes are explained in the subjoined notes on clauses.

No. 5706M.—10th December 1934.—In exercise of the power conferred by clauses (*a*) and (*b*) of section 215 of the Bengal Municipal Act, 1932 (Bengal Act XV of 1932), the Government of Bengal (Ministry of Local Self-Government) are pleased to make the following rules:—

Rules prescribing the procedure to be followed by an assessor of municipal taxes appointed under the Act and by the Assessment Review Committee appointed under sub-section (1) of section 149 of the Bengal Municipal Act, 1932.

1. The Assessor shall commence work in sufficient time as may be fixed by the Commissioners at a meeting according to the local conditions, so as to finish his work at least three months before the date on which the new assessment is to take effect.

2. The office of the Assessor shall be situated in the municipal office or in any other suitable place provided by the Chairman for the purpose.

3. It shall be the duty of the Chairman to produce all relevant and required documents and papers in his power and otherwise render every assistance to the Assessor and the Assessment Review Committee appointed under sub-section (*1*) of section 149 of the Act in the discharge of their duties.

4. The assessor shall obtain from the Chairman copies of the current assessment registers and all information as to new holdings, and may issue notices under section 134 of the Act in Form A attached hereto to owners or occupiers of all holdings whose names appear in the said registers and to all owners or occupiers of new holdings, requiring them to submit to him, within one week of service of the notice, true and correct returns of the rent or annual value thereof and true and correct description of the holdings in Form B annexed hereto. These forms shall be printed by the Commissioners and copies shall be attached to every notice under section 134.

5. The notice referred to in rule 4 shall be signed by, or shall bear a facsimilie of the signature of, the Assessor.

6. The Assessor shall verify each return referred to in rule 4 in chronological order.

7. The notice of intention of the Assessor or any person authorized by him in writing, to enter, inspect and measure any holding shall be in Form C annexed hereto and shall be served by a special messenger in the manner laid down in section 510 of the Act.

8. (*a*) For the purpose of ascertaining the gross annual rental at which a holding may reasonably be expected to let comparison may be made with the rents of similar holdings in the vicinity. Regard may

also be had to the rent which might reasonably be expected in an average year or taking one year with another, and not in any particular year. The rental of the holding in the past or in the future is immaterial, and a hypothetical tenant shall be assumed to use the property in the same way as the actual occupier, and to have the same facility for deriving profit from it, no more or no less.

(*b*) If such gross annual rental cannot, in the opinion of the Assessor, be easily estimated or ascertained, he shall determine the value of the building or buildings on the holding at the time of such assessment, regard being had to the age and existing condition of the building, its description and the dimensions of the rooms, the materials used, the area covered, accommodation, environment, road facility, commercial importance, sanitary condition, water supply facility, distance from schools and markets, present market value, and all other amenities and other conveniances. Ground rent for the land comprised in the holding shall be ascertained from the local sub-registry office or otherwise.

9. When the annual value of a holding has been determined by the Assessor, he shall fill up the last two columns of Form B and prepare an assessment list in the manner prescribed in section 136 and in accordance with the percentage rate fixed by the Commissioners at a meeting under section 135. When the assessment list is ready, the Assessor shall endorse on it a certificate over his signature as to the correctness of the entries therein, and shall then make it over to the Chairman who shall give the Assessor a dated receipt.

10. The assessment list prepared by the Assessor shall be submitted with a brief report to the Commissioners showing the basis on which he has prepared the list, *e.g.*, it should compare different areas and streets or even parts of a street and show why properties in them differ in value. Further each actual assessment shall be accompanied by a note showing how he has arrived at it, comparing the property in question with other similar property and explaining why the assessment differs, if it does.

Procedure to be followed by the Assessment Review Committee appointed under section 149(1).

11. All applications for review of assessment or valuation or for exemption from assessment filed within the time prescribed in section 148 of the Act shall be entered in an objection list and that list with the assessment list to which objection is taken shall be placed before the Assessment Review Committee appointed by the Commissioners under sub-section (*1*) of section 149 of the Act.

12. The Committee shall then give at least seven days' notice under sub-section (*2*) of section 149 of the Act to the applicant in Form D annexed hereto of the time and place at which the application will be heard.

13. On the date so fixed for hearing, or any date to which such hearing may be adjourned, the Committee shall take such evidence and make such enquiry as it may deem necessary, in the presence of the objector or his agent, if he appears, and shall then pass such orders on the application as it thinks fit. One member of the Committee shall attest and date any correction in the assessment list that may be necessary

as a result of its decision, and the assessment list shall be final as soon as all the objections to it have been heard and determined.

14. For the purpose of determining the gross annual rental of a holding, the Committee shall generally follow the procedure laid down in rule 8.

Area of supply.

3. The area above referred to within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area bounded as follows:—

Boundaries.

On the North—By the Bengal-Nagpur Railway (main) line running north-east and east from Sankrail railway station through Andul and Mourigram railway stations and by the northern loop line through Santragachi railway station and by the Bengal-Nagpur Railway Shalimar Branch line to the point where this branch line crosses the western boundary of the area of supply under the Howrah Electric License, 1926 (Amended 1932).

On the East—By the western and southern boundaries of the area of supply under the Howrah Electric License, 1926 (Amended 1932), and by a line running north and south across the river Hooghly, such line being (on the left bank) at the centre of Nimakmahal Ghat Road and this north and south line being part of the boundary of the area of supply under the Calcutta River License, 1912, and the western and southern boundaries of the area of supply under the Calcutta Electric License, 1907, to the junction of the khal known locally as Kaorapukar and Thakurpukur khal with Tolly's nullah and by the south-eastern boundary of Kaorapukar and Thakurpukur khal to its junction with Charial canal where it passes under the Kalighat-Falta Railway and Diamond Harbour Road.

The area of supply specified above is shown coloured red on the deposited map.

Situation of Generating Station.

4. The generating station from which the supply will be taken is situated outside the area of supply but a transformer station or transformer stations will be constructed within the area of supply. The licensees may lay down or place supply lines from such generating station to the boundary of the area of supply.

Purpose of supply.

5. Subject to the provisions of this license and the Act and the rules thereunder, the licensees shall be entitled during the continuance of this license to supply energy within the area of supply for all purposes to—

(*a*) Large consumers.

(*b*) Small consumers.

By way of exception to section 22 of the Act, it is hereby expressly declared:—

The licensees shall not, without the previous sanction of the Local Government in writing, engage in any business other than that specially authorised by this license and other licenses held by them under the Act or essentially necessary to permit the licensees to carry out the obligations imposed by this license, the Indian Electricity Act, 1910, and the Indian Electricity Rules, 1922.

The licensees shall not be under any obligation to supply energy to any small consumer until the Local Government shall decide that the local demand in any sub-area as undermentioned is sufficient to warrant the licensees' obligation to supply to small consumers in that sub-area and shall give notice in writing of such decision to the licensees whereupon the licensees shall be under obligation to commence supply to small consumers in that sub-area.

The area of supply specified in clause 3 above shall be deemed to be divided into such sub-areas as may from time to time be ordered by the Local Government or approved by the Local Government on the application of the licensees, and each such sub-area shall for the purposes of section 22 of the Act be deemed to be the "area of supply" referred to in that section, and the provisions of section 23 of the Act regarding undue preference shall apply as if each sub-area were covered by a separate license. Any sub-area may be formed as aforesaid either before or after any requests for supply have been received from intending small consumers. The rates, terms and conditions upon which small consumers may demand supply in each sub-area may at the discretion of the licensees differ from those in other sub-areas but shall be uniform in each sub-area. In deciding the rates, terms and conditions to be applied to each sub-area consideration shall be given to the cost of the licensees' works, proximity of the consumers' load to one of the transformer stations and to any other matters which may be considered relevant, but in no case shall the maximum rates set out in this license be exceeded.

Conditions of supply and rates to be charged.

6. Within six months from the date of the formation of a sub-area or sub-areas referred to in clause 5 hereof, the licensees shall submit to the Local Government a statement of terms and conditions which they propose to make to regulate their relations with persons who are or who intend to become consumers within such sub-area or sub-areas.

Nature of supply.

7. The supply to be given under this license shall be alternating current at a frequency of 50 complete cycles per second.

(*a*) For domestic and general purposes other than manufacturing, a medium pressure three phase four wire supply at a pressure of 400 volts between phases and a low pressure of 230 volts between each phase and neutral.

(*b*) For manufacturing purposes, up to and including 50 kilowatts connected load by a medium pressure three-phase supply at a pressure of 400 volts between phases.

(*c*) For manufacturing purposes, over 50 kilowatts by a three-phase supply at a pressure of 20,000 volts or 6,000 volts between phases.

The pressure stated above shall be as measured at consumers' terminals and shall be uniform, within the limits prescribed by the Indian Electricity Rules, 1922, throughout the area of supply.

Provided that the licensees may, from time to time, with the previous consent in writing of the Government of Bengal and subject to such limitations and conditions as shall be prescribed in writing by the Government, adopt any other system of supply for the purpose of this license.

Limits of rates to be charged in respect of the supply of energy.

8. The rates to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

At the following rates per month:—

(*a*) For lighting purposes—For any quantity up to 6 units—Rupees 6 only and for each unit over 6 units, annas 8 only.

(*b*) For purposes other than lighting—Annas 4 only per unit.

(*c*) In the case of a method of charge approved by the Government in accordance with section 23, sub-sections (*3*) and (*4*) of the Act, the maximum rates shall be such as the Government of Bengal may fix on approving the matter.

Purchase of undertaking.

9. (*a*) The option of purchase given by section 7 of the Act, shall be exercisable on the 30th day of November 1980 and at the end of every subsequent period of ten years during the subsistence of this license. The percentage of the value to be determined in accordance with and for the purposes of section 7 of the Act of the lands, buildings, works, materials and plant of the licensees therein mentioned to be added under the said section to such value on account of compulsory purchase, shall be 20 per cent.

(*b*) In accordance with section 3, sub-section (*2*), clause (*d*) (*ii*) of the Act, it is hereby declared that all the works, within the area of supply described in clause 3 of this license shall, and that the generating station referred in clause 4 of this license to be used in connection with the undertaking shall not, form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act.

(*c*) After notice shall have been given as prescribed in section 7, sub-section (*4*) of the Act, all extensions and outlays of money debitable to the capital account of the licensees during the last two years of the period of such notice shall be subject to the previous approval of the Local Government.

Exceptions and variations from the Schedule to the Act.

10. In pursuance of clause (*f*) of sub-section (*2*) of section 3 of the Act it is hereby expressly declared that—

(*a*) Clauses I and IV of the Schedule to the Act shall be excepted from incorporation in this license.

(*b*) Clauses V, VI, VII, VIII and XII of the Schedule to the Act shall be deemed to be excepted until the Local Government shall order or decide that the local demand for electrical energy is sufficient to warrant the observance thereof in any sub-area as provided in clause 5 and shall give notice in writing of such decision to the licensees whereupon such clauses V, VI, VII, VIII and XII of the Schedule to the Act shall apply in respect of that sub-area.

(*c*) The following sub-clause shall be substituted for clause X, sub-clause (*2*), namely:—

"Within six months from the date of this license, the licensees shall give notice by public advertisement, in such a manner as shall be previously approved by the Local Government, of the method by which they propose to charge for energy supplied to consumers and the rates at which such energy will be supplied. Where the licensees have given such notice they shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by public advertisement in the manner aforesaid and giving not less than one month's notice in writing or such shorter notice as the Local Government may deem proper of any such change to the Local Government and the local authority concerned and every consumer of energy who is supplied by them."

Securing continuity of supply.

11. If it shall come to the knowledge of the licensees (which expression shall for the purpose of this clause and clause 12 immediately following be taken to mean and include the licensees, their employees, servants and agents and their permitted assigns) that any civil commotion or disturbance of the public peace or any strike or lockout of the nature specified in section 15 of the Trade Disputes Act, 1929, likely to result in the interruption of supply of energy from the power station or to consumers has commenced or is presently apprehended by the licensees, then the licensees or some one on their behalf shall give the District Magistrate or to a Magistrate near the licensees' power station immediate and full information with regard thereto.

12. If the licensees shall in the opinion of the Local Government have failed to give such immediate and full information as is required in clause 11 hereof or if at any time any interruption of the supply shall occur which in the opinion of the Local Government is attributable to any wilful or preventable default or neglect on the part of the licensees or if the licensees shall in the opinion of the Local Government fail to comply with any of the provisions of any of the clauses of this license or if the general direction and control of the licensees shall cease to be in the hands of British subjects, the license may be revoked.

A copy of the deposited map may be inspected and copies of the draft license may be obtained at the local office of the Company at Victoria House, Calcutta.

Every local authority, company, or person desirous of making any representation to the Government of Bengal with reference to the application for the license may do so by letter addressed to the Secretary to the Government of Bengal, Commerce Department, Writers' Buildings, Calcutta, within three months of the date of the issue of the newspaper in which this advertisement is first published, namely, the 29th November, 1934.

Subject for 1934—"Proprietary rights of women under the ancient Hindu Law with special reference to the changes introduced by Judicial decisions and British Indian Legislation."

Subject for 1935—"Development of the Law of marriages in the Smriti literature involving relevant references to the changes introduced by British Indian Legislation and Judicial decisions in accordance with it."

The attention of the intending candidates is expressly called to the following conditions laid down for the prize:—

(*ii*) The essay may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof, but in no case shall an essay be entitled to competition which in any way attacks the religious belief, usages or institution of His Majesty's subject.

(*iii*) By Adhyapak shall be meant scholars of the Smriti Sastra, students of the Smriti in the Government Sanskrit College in Calcutta, and in the *tols* of indigenous Brahmanical schools which send in candidates for the title examinations held in that college, and students in other similar institutions in India.

(*iv*) Every candidate for the prize shall be required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others, and the portion of the thesis which he claims as original. He shall further be required to state whether his research has been conducted independently, under advice or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

(*v*) Successful candidates shall be required to publish their essays, and if necessary they shall receive help from the University for the purpose.

(*vi*) The essay or essays shall be written either in English or in Bengali, but if any competitor sends in an essay in vernacular language other than Bengali he shall be bound to furnish English translation thereof.

3. In section 79 of the said Act, for the words "up to the date of realisation" the words "due, up to the date of realisation, which shall, in the case of betterment fees under section 78B or section 78C, be" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

Section 78 of the Calcutta Improvement Act, 1911, provides for the abandonment of acquisition of land not required for the execution of an improvement scheme in consideration of a special payment. Sub-section (4) provides that this special payment may be made in cash or the amount may be left outstanding as a charge on the land, subject to the payment in perpetuity of interest at the rate of 6 *per cent. per annum*. When the Calcutta Improvement Act was passed in 1911, the rate of interest prescribed was 4 *per cent.* As the prevailing rates of interest rose during the war and the years following it, the rate of 4 *per cent.* was found inadequate, and in 1923, the Act was amended and the rate was raised to 6 *per cent.* Government consider that in present conditions this rate is excessive. It seems to Government equitable that the interest payable on these payments should approximate to the rate of interest which the Board has to pay for money borrowed to replace locked up capital. At the same time it is difficult in present conditions to fix a rate of interest which would continue to be suitable for a number of years. The Bill, therefore, amends section 78 so as to provide that Government may, from time to time, fix the rate of interest by notification, subject to a maximum rate of 6 *per cent.*

No. 2216L.C.—14th December, 1934.—In pursuance of the provisions of rule 20 of the Bengal Legislative Council Rules, 1920, the following Bill which was introduced in the Bengal Legislative Council on the 11th December, 1934, is hereby published for general information together with the Statement of Objects and Reasons annexed thereto.

THE CALCUTTA MUNICIPAL (AMENDMENT) BILL, 1934.

A

BILL

further to amend the Calcutta Municipal Act, 1923.

WHEREAS it is expedient further to amend the Calcutta Municipal Act, 1923, in the manner hereinafter appearing; Ben. Act III of 1923.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Calcutta Municipal (Amendment) Act, 1934.

Amendment of section 477 of Bengal Act III of 1923.

2. After clause (*xiii*) of section 477 of the Calcutta Municipal Act, 1923, the following clause shall be inserted, namely :—

"(*xiiia*) assistance to schools in which persons employed on manual labour above the ages specified in section 91 receive primary education and to *tols* and *maktabs*;".

STATEMENT OF OBJECTS AND REASONS.

The Calcutta Municipal Act, 1923, does not contain any express provision for the payment of grants by the Corporation of Calcutta to *tols* and *maktabs* or to institutions in which persons employed on manual labour receive primary education. The object of this Bill is to remedy this defect, as it is considered desirable that the Corporation should have power to make grants to these institutions.

Minute of dissent by Dr. N. C. Sen Gupta, M.L.C.

I am of opinion that the scope of the Bill is unduly narrow. It will be for the Council to consider whether by a supplementary Bill its protection should not be extended to other classes of humble wage-earners who are equally subject to besetting either in their places of work or in the offices where they are paid. But, as there are difficulties about amending this Bill for the purpose I do not desire that the passing of this Bill should be delayed on that account.

Clause 3.—I think that the draft of clause 3 has been misconceived and is based on a confusion between the two different functions of apprehension and conviction for the offence. There should be no conviction unless it is proved within the meaning of the word in the Evidence Act that the man was besetting the factory with a view to recover a debt. In arriving at his finding on the question the Magistrate will consider the circumstances and upon such consideration may be satisfied that the object of the besetter was to realise his debt, although no direct evidence of that intention is forthcoming. On the other hand a man who loiters in such manner as to afford just ground for *suspicion* and no more that he was besetting, can be very properly arrested but he cannot be convicted unless the circumstances show not only grounds for suspicion but the strong probability that he was besetting with that object.

I would therefore omit the words " in such manner or in such circumstances as to afford just grounds for suspicion that he is so loitering."

The absurdity of the present draft would be clear on consideration of an extreme case. Suppose a Magistrate is satisfied on the evidence that the accused was not besetting with the intention stated, but the manner of his loitering nevertheless offered just ground for suspicion that he was. In such a case the Magistrate would nevertheless be bound to convict on the section as it stands. No doubt it may be presumed that no Magistrate would act so unreasonably. But he can refuse to do so only by evading the words of the section. It is obvious that the Legislature should attempt to make its laws reasonable instead of trusting to the good sense of the Magistrate to disregard the law in an inconvenient case.

Minute of dissent by Mr. H. S. Suhrawardy, M.L.C.

In my opinion the Bill does not go far enough. It does not protect certain classes of workmen and labourers who are equally, if not greater, victims of the rapacity and oppression of money-lenders than those whom the Bill is designed to protect. The Bill also is limited to protecting certain classes of workmen at or near the place where they work. Obviously the intention of the Royal Commission on Indian labour when it made its recommendations was to protect workmen from extortion by money-lenders and creditors *when they receive their wages*; for it is just then that the workman or labourer is subject to the greatest harrassment, as instances we can cite the case of seamen, who receive their wages at the Shipping office, or municipal menial servants, who receive theirs in the Municipal or District offices away from their place of work. It was therefore essential that the workman or labourer should be protected from being beset near the place where he receives his wages. I would have been glad to introduce this amendment, but I am credibly informed that this may so widen the scope of the Bill as to need fresh circulation and a fresh sanction from the Government of India. I, therefore, do not suggest that the present Bill should be amended in the present session, but I am definitely of opinion that after obtaining the sanction of the Government of India an amending Act should be brought in enlarging its scope so as to make it penal for creditors to beset places where a seaman, labourer, workman, or a menial servant of a body corporate such as a municipality receives his wages. I am happy to say that many members of the Select Committee have expressed the view that they agree with the above opinion.

Minute of dissent by Mr. K. C. Roy Chowdhury, M.L.C.

The name and title of the Bill, namely, the Bengal Workmen's Protection Bill, sounds as if some real protection is provided for labour, *e.g.*, protection against disease, accident or exploitation by employers. The Bill only aims at punishing money-lenders for besetting indebted workmen's place of work—a mild dose of protection indeed. I would, therefore, suggest that the name should be " Indebted Workmen's or Labour Protection Act." I am also opposed to the majority decision in clause 4 that offences under the Act shall be " bailable." The fear of a night's detention in police lock-up will act as deterrent to many *Kabulees*, " whose *lathi* is the only court to which they appeal " for realisation of debts.

Resolution Reviewing the Reports on the Working of Municipalities in Bengal during 1932-33.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

Local Self-Government (Municipalities).

CALCUTTA, THE 11TH DECEMBER 1934.

RESOLUTION—No. 5744M.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Number of municipalities.—The number of municipalities in the Presidency was 117 as in the previous year The boundaries of the Santipur Municipality were changed owing to the shifting of the river Hooghly and the area of the Bogra Municipality was extended in order to include the new Police lines. The boundaries of some other municipalities have also undergone slight modifications as a result of the recent survey and settlement operations.

The outstanding event of the year was the passing of the new Bengal Municipal Act (Bengal Act XV of 1932) which was brought into operation from December 1932 in all the municipalities except the two hill municipalities of Darjeeling and Kurseong where the old Act continued to be in force.

2 **Elections.**—During the year under report, general elections were held in 54 municipalities In the Presidency Division elections under the new Act were held in 18 municipalities, but before it came into force an election under the old Act had already taken place at Budge-Budge In the Burdwan Division there were 13 general elections, of which 12 were under the new Act

The Uttarpara Municipality had to hold two general elections in the course of a few months, one under the old and another under the new Act; while the Burdwan Municipality, where a general election under the old Act took place in 1931-32, held another election in March 1933, under the new Act. In the Rajshahi Division general elections were held at Bogra and Darjeeling under the old Act and in 8 other municipalities under the new Act In the Dacca Division general elections were held in 13 municipalities under the new Act. The election at Kurseong was overdue but could not be held owing to uncertainty as to the date of extension of the new Act to the Darjeeling district

In most municipalities elections were keenly contested. In the small town of Jamalpur (Mymensingh) 94 per cent. of voters of one ward attended the polling station and at Kishorganj the contest was so keen in one ward that out of 110 voters all except 9 turned up to vote. In the Darjeeling Municipality the hillmen showed their growing class consciousness by putting forward candidates of their own and securing 8 seats out of 18. On the other hand, in the Arambagh, Vishnupur, Sherpur (Bogra) and Old Malda Municipalities there was no contest and no polling. There was no poll in the Gouripore and Nalchiti Municipalities in the Dacca Division, as the number of candidates did not exceed the number of seats; while at Cox's Bazar only one seat out of twelve was contested.

3. **Meetings.**—Out of 2,809 meetings held during the year, 90 proved abortive for want of quorum and 210 were adjourned, against 118 and 249, respectively, in the previous year. The number of adjourned meetings in the Burdwan Division was 95, the Hooghly-Chinsurah Municipality achieving an unenviable notoriety by adjourning 24 out of its 51 meetings. Bansberia and Bally held the highest number of meetings, viz., 62 each The next highest numbers were contributed by Panihati with 55, Nabadwip with 54 and English Bazar with 47. The percentage of attendance was, however, very low at English Bazar and at Chandrakona 6 meetings failed for want of a quorum. The commissioners of the Mymensingh and Perojpur Municipalities failed to meet once a month.

The attendance of commissioners was quite good. In 11 municipalities the

average attendance was over 80 per cent. and in 20 others, over 70 per cent. In only 9 was it less than 50 per cent. The best record was that of Baranagar, with a percentage of 90·8. At Budge-Budge the percentage was only 43·3, while at Debhatta it fell to 7·5. It must, however, be remembered that a high percentage of attendance often connotes the existence of party faction, and is not, therefore, in itself an indication of an eagerness for the discharge of civic responsibilities.

4. **Ratepayers.**—The total number of ratepayers rose from 343,600 to 346,120, the percentage to total population being 15·09 against 14·9 in the previous year. The percentage was highest at Sherpur in the district of Bogra (37·5) and lowest at Bhatpara (3·1), a mill town with a a large cooly population. Other towns in which rates are paid by less than one-tenth of the population are Mymensingh and the riparian mill municipalities with a floating population of factory operatives who pay no rates themselves. In the two hill municipalities of Darjeeling and Kurseong the percentage was 5·3 and 6·6, respectively.

5. **Rates and taxes.**—The average incidence of taxation for the province as a whole was Rs. 2-15-11. The actual incidence ranged from Rs. 8-3-9 at Dum-Dum and Rs. 4-5-7 at Hooghly-Chinsurah to Re. 0-8-3 at Ramjibanpur and Re. 0-7-1 at Baduria. Revisions of assessment were made in a number of municipalities. At Khardah and Brahmanberia the tax on persons was replaced by a rate on holdings, the former having been abolished by the new Municipal Act. Bhatpara imposed lighting and water-rate, and Kushtia imposed a conservancy rate. Baranagar and Naihati increased their revenue by the assessment of new and improved holdings, and Tollyganj showed an increase of Rs. 3,646 in revenue as a result of revision of assessment. General revision resulted in decreased revenue at Ramjibanpur, and partial revision produced a slight fall in revenue at Chandrakona, Kharar, Serajganj and Old Malda. Revision in the Dacca and Chittagong Divisions, on the other hand, resulted in a large increase at Dacca (Rs. 5,749), Narayanganj (Rs. 15,150), Chittagong (Rs. 5,305), Comilla (Rs. 3,978), Chandpur (Rs. 1,381) and Noakhali (Rs. 2,743), the net increase for the whole Chittagong Division being Rs. 20,502. Decrease of revenue at Jamalpur, Mymensingh, Netrokona and Faridpur was due to remissions.

6. **Collections.**—The collection for the province as a whole fell from Rs. 67·43 lakhs to Rs. 66·65 lakhs. The percentage of collection on the current demand also fell from 89·5 to 88·8, the lowest ratio being returned by Tollyganj (68·9). This general decrease is ascribed to the prevailing economic depression. Six municipalities, viz., Kurseong, Muktagacha, Gouripur, Vishnupur, Midnapore and Jangipur, achieved the distinction of collecting the current demand in full, while the Garulia Municipality collected the full current demand without granting remission. Bhadreswar and Champdani also collected practically the whole of their demand after granting less than ½ per cent. remission, no outstanding balance being left in the former case and only Rs. 106 in the latter. In these towns, however, the bulk of the taxes is paid by the mills, leaving only a small percentage to be collected in the ordinary way.

The total remissions, both arrear and current, for the province as a whole amounted to Rs. 4,64,576 and represented 6·2 per cent. of the current demand. The percentage of remissions to the current demand varied from 41·2 per cent. at Chandrakona, 39 per cent. at Debhatta and 31·8 per cent. at Serajganj to ·5 per cent. at Bhadreswar and Kurseong. The Howrah, Hooghly-Chinsurah and Dacca Municipalities remitted as much as Rs. 1,61,969, Rs. 21,541 and Rs. 34,948, respectively, and the total remissions in the Rajshahi Division rose from Rs. 29,817 to Rs. 38,540. In the case of Howrah and Hooghly-Chinsurah, the abnormally high remissions are generally ascribed to the decision of the Appeal Committees in cases filed against revision of assessment. No explanations have been given for the large remissions in other towns. These are, however, not far to seek. Large remissions are the logical consequence of careless and illegal assessment, inefficient collections and reluctance to enforce the summary procedure provided in the Bengal Municipal Act. The following are some of the glaring instances of irregular remissions granted by the municipal commissioners which were noticed by the Examiner of Local Accounts in the Local Audit Report for the year 1932-33:—

(*i*) At Satkhira taxes were remitted on the ground of poverty, the latrine and

water taxes having been assessed without any reference to the valuation of the holdings.

(*ii*) At Nabadwip remission of taxes was granted with retrospective effect in several instances on account of excessive hardship, although such remission with retrospective effect is inadmissible.

(*iii*) At Barisal the commissioners at a meeting remitted half the excess water consumption fees in respect of all the pending bills, although there is no provision either in the Act or in the rules authorising the commissioners to grant such remissions.

(*iv*) At Vishnupur the latrine tax on vacant holdings was, in numerous cases, fully remitted on the ground that the holdings were vacant or that the occupiers were too poor to pay the tax.

The balance outstanding rose from Rs. 25¼ lakhs at the commencement of the year to more than Rs. 28½ lakhs at its close. Of this amount, Howrah alone was responsible for more than Rs. 9¼ lakhs. Other municipalities which had unduly large balances outstanding were Dacca (Rs. 2,82,670), Mymensingh (Rs. 1,01,080), Hooghly-Chinsurah (Rs. 92,314), Tollygunge (Rs. 82,191), Barisal (Rs. 65,403) and Comilla (Rs. 61,780). Asansol, Bally, Serampore and Rangpur had outstandings of more than half a lakh of rupees each. Three municipalities, viz., Bhadreswar, Garulia and Dhulian, on the other hand, had no outstanding balance. While the general trade depression and economic distress were undoubtedly among the causes of large outstandings, the main reason must, as heretofore, be sought in the natural reluctance of non-official executives to jeopardise their chances of office and re-election by taking coercive measures, and in the inefficient management of the assessment and collection departments. Not a few commissioners and other influential and well-to-do persons took advantage of their position to allow their taxes to fall into arrears and in most cases no effective action was taken against them. It is a regrettable fact that the financial condition of many municipalities is deteriorating and will continue to do so as long as disinterested and energetic administration is lacking.

7. **Income and expenditure.**—The total receipts including opening balances fell from Rs. 122·4 lakhs to Rs. 112·9 lakhs. The total disbursement amounted to Rs. 99·7 lakhs as against Rs. 109 lakhs in the previous year. The total balance at the close of the year was Rs. 13·2 lakhs as against Rs. 13 lakhs. Baranagore had a closing balance of Rs. 48,674 representing funds accumulated for its water-supply scheme, while Budge-Budge, South Dum-Dum, Titagarh and Nabadwip also had large closing balances in the form of funds set apart for town improvement schemes. On the other hand, a number of municipalities failed to keep adequate working balances and in several instances these were insufficient to meet outstanding liabilities. Debhata closed the year with a balance of Rs. 50 only and at Dinajpur, Rangpur, Bogra, Sherpur, Pabna and Serajganj the outstanding liabilities largely exceeded the closing balance. The worst offenders in this respect were Bhola which had outstanding liabilities amounting to Rs. 4,070 against an actual balance of Rs. 9 only, and Howrah which closed the year with a sum of Rs. 61,662 only against liabilities amounting to Rs. 2,19,277.

8. **Education.**—The total amount spent on education rose from Rs. 5,03,105 in 1931-32 to Rs. 5,24,798 during the year under review. This amount included a Government contribution of Rs. 1,32,981. Expenditure on primary education totalled Rs. 3,55,029. In the Presidency Division expenditure on primary education rose by Rs. 2,833, owing to an increase by the Baranagore, Tollygunge, North Barrackpore and Panihati Municipalities of their expenditure under this head. Murshidabad, on the other hand, spent only Rs. 2 on primary education, and Dum-Dum spent nothing under this head, while at Berhampore there was a decrease of Rs 3,862. The Howrah Municipality considerably increased its expenditure by the establishment of a number of free primary schools, although a great deal remains to be done in the mill areas of this municipality in the matter of opening night schools for the illiterate labouring classes. The Dinajpur Municipality introduced free primary education in primary schools under its direct control with effect from 1st April 1933; primary education was reported to have been seriously neglected at Pabna and Serajganj. Dacca spent Rs. 24,068 on primary schools but this amount included a Government contribution of Rs. 13,118. Narayanganj maintained a free public library and five primary

schools. The Chittagong Municipality spent Rs. 59,132 on education, of which Rs 17,962 was devoted to primary education. Three free schools for the boys of the labouring classes, fishermen and sweepers were maintained by the municipality and aid was given to a girls' school for *Jaladas* and a night-school for Santhals.

9 **Water-supply.** The total expenditure under this head during the year under review was Rs. 14·6 lakhs against Rs. 17·34 lakhs in the previous year, the decrease being due partly to the fact that several municipalities incurred heavy capital expenditure during the preceding year and partly to the general reluctance to undertake new works owing to the economic depression. Notable increase in expenditure, however, occurred at Barisal (Rs 39,267), Dum Dum (Rs. 38,828) and Dacca (Rs. 21,349). The Barisal waterworks extension scheme was completed and at Dacca a large number of pending bills were paid off. Serampore secured administrative approval to a water-supply scheme of its own at an estimated cost of Rs. 3,46,000 and Burdwan obtained sanction for a water-supply extension and improvement scheme costing Rs. 26,974. The scheme proposed by the Hooghly-Chinsurah Municipality was under examination by the Public Health Department. The Burdwan Division, as a whole, showed a total decrease in expenditure of Rs. 1,68,930, the decrease being especially marked at Asansol, Hooghly-Chinsurah and Howrah. In the Presidency Division, Naihati, Nabadwip, Khulna and Khardah increased their expenditure, but Satkhira, Kamarhati and Gobardanga spent less, and expenditure at Tollygunje fell by Rs. 3,899 owing to the non-payment of a bill for water supplied by the Calcutta Corporation. In the Rajshahi Division the total decrease was Rs. 80,969 which is, however, mainly ascribed to the large outlay on original work which had been incurred at Darjeeling in the previous year. At Rajshahi the waterworks scheme made no advance owing to the failure of the donors to carry out their promises, the principal donor, Maharani Hemanta Kumari Debi of Putiya, having agreed to pay only Rs 5,000 annually out of a promised contribution of Rs. 1 lakh. Similarly, at Pabna the waterworks scheme remained at a stand-still as the Tarash zemindars were unwilling to pay anything out of a promised contribution of Rs. 50,000; and there was little prospect of progress made with the waterworks scheme for Nawabganj. The joint water and electric-supply scheme at Jalpaiguri, on the other hand, made remarkable progress; and the waterworks at English Bazar (Malda) were opened in October 1932. There was marked decrease of expenditure at Narayanganj (Rs. 74,215) and Faridpur (Rs. 16,106) which is accounted for by the heavy expenditure on capital works which had been incurred during the preceding year. The waterworks at Barisal, Dacca, Mymensingh, Narayanganj and Patuakhali continued to function during the year with generally satisfactory results. At Patuakhali the supply of filtered drinking water is reported to have effected a great diminution in the death rate from cholera Chittagong spent Rs. 40,194 on water supply, but the supply of water was not very satisfactory as the extension of the watered area without a corresponding strengthening of the pumping house engines resulted in an appreciable decrease in pressure. The supply of water at Comilla is also reported to have been unsatisfactory in the western portion of the municipality. A waterworks scheme at Chandpur and an improvement scheme at Noakhali were under consideration at the close of the year.

Several municipalities showed commendable activity in sinking tubewells. In the Burdwan Division most of the municipalities without waterworks sunk tube-wells for the supply of good drinking water, and there was a demand for more such wells. The Rajshahi Municipality also sunk tube-wells in parts of the town where scarcity of drinking water was badly felt. At Brahmanbaria an extension of the existing system of supply of drinking water from tube-wells sunk by the municipality was carried out during the year under review.

10. **Conservancy and Drainage.**—The expenditure on conservancy fell from Rs. 23·13 lakhs to Rs. 22·64 lakhs, but it was still in excess of the receipts on this account, which totalled Rs. 17·74 lakhs. The total expenditure on drainage amounted to Rs. 7·09 lakhs. No new schemes of importance were undertaken in the Burdwan Division, and although several riverside municipalities of the Hooghly District contemplated the construction of sewarage drains, economic conditions proved a handicap. The

heavy expenditure at Burdwan was due to the overhauling of the night-soil vans and road-watering carts and to extra road-watering and bustee-cleaning by the municipality following upon a smallpox epidemic. In the Presidency Division, Bhatpara showed a large decrease (amounting to Rs. 1,37,032) in conservancy and drainage expenditure, owing, mainly, to the fact that a smaller amount was spent during the year in connection with the town improvement scheme which had almost been completed during the preceding year. There was an appreciable increase of expenditure at Naihati owing, largely, to the construction of pucca roadside drains, and at Baranagar owing to increase in establishment and to repeated repairs to the motor lorries in use in the municipality. Kamarhati increased the number of its sweepers and acquired land for a pail depot.

The condition of the municipal drains in the Rajshahi Division continued, with a few exceptions to be very unsatisfactory. Most of the District Officers stressed the urgency of improvement in this direction and commented upon the faulty planning and construction of drains and on the lack of any system for keeping them clean. The insufficiency of trenching grounds and inefficiency of the night-soil service continued to be noticeable. The conditions at Natore were particularly unsatisfactory, all the low-lying parts of the town being choked with water-hyacinth. At Darjeeling collections of refuse by motor lorries proved successful. Mymensingh increased its expenditure on drainage by over Rs. 4,000 through the construction of masonry culverts, the repair of old drains and the re-excavation of some main outfalls. At Dacca six connected public latrines were taken over by the municipality from the University, but in the city proper the substitution of old privies by privies connected with main sewers proceeded slowly on account of the economic depression. The drainage system at Comilla was far from satisfactory, and an expert survey is required for the preparation of an improvement scheme. Chittagong increased its expenditure on conservancy by improving two night-soil depots and one public latrine, by engaging an extra lorry for the removal of refuse, by repairing sweepers' sheds, and by improving the trenching grounds. Generally speaking, progress was slow, and until financial conditions improve, there is little prospect of a rapid advance.

11. **Lighting.**—The expenditure on lighting amounted to Rs. 7,03,308. Asansol introduced electric lighting, and negotiations for electric lighting were proceeding at Midnapore, Bansberia and Bankura. As a result of the trade depression there was a fall in receipts from electric lighting at Howrah. Burdwan imposed no lighting rate on the ground that its electrification scheme was not complete. Several municipalities in the Presidency Division, namely, North Barrackpore, Barrackpore, Kharda, Panihati and Jaynagar, however, spent nothing under this head while Nabadwip reduced its expenditure by lighting its streets for only 15 instead of 20 days in each month. Darjeeling remodelled a portion of its electric plant at a cost of Rs. 80,690, and schemes for further improvement were in hand. The execution of the agreement in respect of the electrification scheme for Dinajpur was delayed by the Company concerned, and at Pabna no progress could be made owing to the licensee having absconded after becoming bankrupt. Work at Serajganj was hampered by friction between the Directors and the Managing Agents of the Company, which was placed in the hands of a Receiver pending liquidation. At Dacca expenditure on lighting increased by nearly Rs. 24,000 on account of additional lights and the payment of pending bills. Chittagong also increased its expenditure and raised the total number of its electric lights to 453, while Comilla completed the electrification of some of its roads.

12. **Public health.**—Municipal authorities generally showed energy in taking measures for the prevention and control of epidemic diseases. Inoculation against cholera and vaccination for smallpox were extensively resorted to, and anti-malarial measures were widely adopted in co-operation with *Pallimangal Samitis* and other local associations. A smallpox epidemic at Burdwan caused a considerable number of deaths, but the municipality took effective measures in conjunction with the district board, and by resorting to house-to-house vaccinations and chlorination of filtered water, brought the epidemic under control. Prompter action on the part of the municipality immediately after the outbreak of the epidemic might have prevented much loss of life. The Bogra Municipality experienced considerable difficulty in dealing with a smallpox epidemic which was said to have originated in

Calcutta and had to take substantial help from the district board. An anti-malarial scheme was started at Raniganj with the assistance of the Public health Department and with the help of a Government grant. The Narayanganj Municipality took effective steps to remove water-hyacinth from tanks and ditches, and by resorting to vaccination on a large scale, was able to reduce the number of deaths from smallpox during the year to 4 only. At Dacca there was a very satisfactory increase in the number of revaccinations from 7,719 to 21,620, while primary vaccinations rose from 4,905 to 6,305. Birnagar worked on scientific lines in fighting malaria, although progress was hampered by lack of funds. Berhampore opened one leprosy and two kala-azar centres, and treated a large number of patients free of charge. It also conducted health examination of the children in its free primary schools, and reported the results to parents and guardians with advice to seek medical help where necessary. Anti-kala-azar and Anti-malaria centres were opened at Chandrakona and anti-malaria societies were formed at Chandrakona and Khirpai. With a view to safeguarding the inhabitants of Chittagong against rabies, the municipality destroyed 353 suspected and ownerless dogs by the administration of poison.

As in the previous year most of the municipalities took steps to improve sanitation by filling up,clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing under-growth and obnoxious vegetation. Seventeen municipalities in the Presidency Division utilised street refuse, road sweepings and rubbish, with very satisfactory results, in filling up ditches and other insanitary excavations, and notices were freely issued on owners to clear jungles and reclaim tanks. The Food Adulteration Act appears to have been very unevenly administered. In the Burdwan Division it is reported to have become more or less a dead letter in most municipalities. The Commissioner of the Presidency Division remarks that only 60 prosecutions had been reported, and that the laboratory at Khulna was not being made use of by the nieghbouring municipalities. In the Darjeeling district, in which 50 prosecutions took place during the year, the Act appears to have been vigorously administered, but the number of prosecutions in the remaining districts of the division was only 38, the number being nil in the municipalities of Jalpaiguri and English Bazar (Malda). In Dacca 86 persons were prosecuted and 297 maunds of adulterated foodstuffs were destroyed, while the Chittagong and the Faridpur Municipalities prosecuted 81 and 71 persons, respectively. On the other hand, Mymensingh prosecuted only 23 persons, and only 4 sellers of adulterated foodstuffs were prosecuted by the Barisal Municipality. Generally speaking, district boards displayed much more zeal than municipalities in this respect and several district boards complained of the failure of urban authorities to co-operate in the prevention of adulteration. In towns, where retail trade is more extensive, municipal executives are often reluctant to antagonise influential tradesmen by insisting on a high standard of purity in foodstuffs. It is to be hoped that all municipalities will, in future, in the interest of the health of the community, make adequate use of their powers of prosecution under the Food Adulteration Act.

13. **Public works.**—The total expenditure on public works during the year was Rs. 10·40 lakhs against Rs. 10·34 lakhs in the previous year. In the Burdwan Division there was a decrease of Rs. 40173, under this head due, mainly, to the restricted programmes of construction adopted by most of the large municipalities. In the Presidency Division there was an increase of Rs. 3,222 in expenditure and an increase of 45·1 in the mileage of municipal roads, of which 22 miles belonged to Baraset. The Krishnagar Municipality experienced difficulty in maintaining its 29½ miles of metalled roads and a reduction in their mileage was under consideration. An increase of Rs. 8,130 in expenditure in the Rajshahi Division was mainly due to a large outlay on buildings by the Darjeeling Municipality. The Dinajpur Municipality started the experiment of treating its roads with colfix, but the roads of the plains municipalities in this division were reported to be generally in a bad condition. In the Dacca Division an increase of Rs. 8,616 in expenditure was largely due to the fact that Narayanganj spent Rs. 6,745 more than in the previous year by repairing some roads and widening and painting with colfix and bitumuls the municipal portion of the Dacca-Narayanganj road. This road being the terminal of a provincial road, Government contributed Rs. 25,000 from the

Road Development Account towards its improvement. The Chittagong Division was responsible for an increase of Rs. 26,402 in expenditure on public works. This was largely due to the activities of the Chittagong Municipality, which throughly repaired 5 miles of road at a cost of Rs. 30,992. The condition of the roads at Comilla remained unsatisfactory despite expenditure of more than Rs. 10,000.

14. **Audit of accounts.**—The audit of accounts of all the municipalities except Gaibanda, Gouripur, Madaripur and Chandpur was effected during the year by the Examiner of Local Accounts and his staff. A serious case of embezzlement in which the sanitary inspector and the municipal accountant were believed to be implicated, was detected at Netrokona and was under investigation. Petty frauds of Rs. 47 and Rs. 330 were discovered at Dainhat and Hooghly-Chinsurah, respectively, but in both instances the money was repaid by the delinquents. No other important defalcations were brought to light, but on the other hand, many irregularities were detected, some of which were of a serious character. Most of these irregularities could have been avoided by methodical office procedure and by proper attention to the Municipal Account Rules. Unfortunately in the great majority of cases, municipalities have not shown readiness to follow audit instructions and their replies to audit notes have usually been very belated. When these replies are received, they were frequently found to be of an evasive character, with the result that the same errors are found to recur year after year. Generally speaking, there was laxity of supervision on the part of municipal executives, and an inclination to place too much reliance upon the office staff in respect of the keeping of accounts.

15. **General remarks.**—The general financial depression greatly affected municipal administration. Unfortunately, however, comparatively few bodies of municipal commissioners did adopt the necessary policy of drastic economy and strict insistence on the punctual collection of revenue, although in every division there were cases in which individual municipalities proved by practical example that with determination and proper control over the staff much could be done to alleviate the situation. The Darjeeling, Kurseong and some of the 24-Parganas Municipalities furnished the best record in this connection. While the number of municipalities reported to have been mismanaged owing to party faction or the personal incompetence of the chairmen was not large, the Minister regrets to note that instances in which collection were bad, remissions were indiscriminately given, arrears were allowed to accumulate and outstanding debts were left unsettled, were even more numerous in the year of report than in the previous year. This was no doubt due, in great part, to a reluctance to exercise pressure on ratepayers who were already suffering from the depression: but, curiously enough another potent cause of feeble administration was the reconstitution of municipalities during the year of report under the new Municipal Act. Owing to the very fact that this Act gave increased powers to municipal bodies, the decision to hold new elections under it, as far as possible, simultaneously, throughout the province appears to have had results prejudicial to the collection of municipal revenues during the year. The feeling that strong steps to enforce collection might lead to their being defeated at the polls deterred the sitting commissioners from adopting a policy of vigorous collection, while in towns where elections were post poned, or where owing to legal difficulties the constitution of a new body of commissioners was delayed, it was hard ly to be expected that the commissioners, who were shortly to retire, should have exhibited any great enthusiasm or energy in the matter. As a result, the only sections of the new Act which were used to any great extent were those dealing with elections; and the value of the Act in general was not tested during the year under review. It had been anticipated, however, that there would be difficulties during the transition period and that the advantages of the new Act were not likely to be appreciated until it had been enforced for some time. The Minister appeals to all municipalities in the province to make full use of the greatly enhanced opportunities for civic development placed at their disposal by the new Municipal Act.

Dacca, the 6th December 1934.

Third Forecast of the Cotton Crops of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—Since the issue of the Second Forecast in October last, weather continued generally fair except in Tripura State where irregular and heavy showers have caused some damage to the early crop.

The prospects of the late variety are fair on the whole.

Area sown.—The total area sown with early cotton is returned at 72,903 acres and that with late at 1,032 acres as against 74,760 acres and the same estimate, respectively, in the corresponding forecast of last year.

Outturn.—The outturn of the early crop is estimated at 23,370 bales and the late crop at 291 bales as against 23,499 and 303 bales, respectively, in the corresponding forecast of last year.

Director of Agriculture, Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 11th December 1934.

Final Forecast of the Bhadoi Crops of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under autumn rice in Bengal has represented some 6·5 per cent. of the total area under rice in British India.)

Character of the season.—As indicated in the preliminary forecast, the crops were affected more or less by drought in some West and North Bengal districts and by flood in parts of East Bengal. Since then favourable weather conditions improved the prospects in some districts; but sudden flood in September was responsible for the low outturn in Rajshahi and in parts of West Bengal. On the whole, a fairly satisfactory crop was reaped for the province.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,311,600 acres as against 6,520,600 acres last year. Of this, the area under autumn rice is estimated at 5,571,800 acres as against 5,775,300 acres last year.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 73 per cent. of the normal this year as against 79 per cent. last year. The autumn rice is estimated to yield an outturn of 72 per cent. of the normal for the province this year as against 85 per cent. estimated by this department last year.

On the basis of a normal yield of 12½ maunds of clean grain per acre, the gross outturn of *bhadoi* paddy (autumn rice) for the province is estimated at 1,842,100 tons this year as against 2,254,100 tons last year.

Director of Agriculture, Bengal (offg.).

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 13th December 1934.

First Forecast of the Spring Oilseed Crops of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under linseed in Bengal has represented some 3·6 per cent. and that under rape and mustard 10·9 per cent. of the total area under these crops in British India.)

Explanatory.—Three forecasts are issued for the spring oilseed crops. The present one deals with the area sown and the conditions of the crops.

Area sown.—Oilseeds are principally grown in the Presidency, Rajshahi and Dacca Divisions. In the other two divisions, the area under cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 886,400 acres this year as against 867,500 and 860,800 acres, respectively, in the corresponding and final forecasts of last year.

Character of the season.—At the outset weather was wet for the preparatory tillage of the crops. From the middle of October dry weather prevailed facilitating field operations and helping germination generally. The present outlook is reported to be promising.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

S. ABDULLAH, for *Director of Agriculture, Bengal.*

Dacca, the 17th December 1934.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 12th December 1934.

Second Forecast of the Winter Rice Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in British India.)

Character of the season.—As reported in the first forecast, the weather was not favourable both for transplantation and early period of growth owing to drought in parts of West and North Bengal and to sudden rise of rivers in some important districts of East Bengal. Subsequently sudden floods in September also affected the crops in places in Nadia, Murshidabad, Jessore and Rajshahi. Good rainfall in October materially helped the growth and final development of the transplanted winter paddy.

Acreage.—According to the figures returned by the District Officers the total area under winter rice is 14,759,000 acres as compared with 15,535,000 and 15,498,700 acres in the corresponding and final forecasts of last year. The increase in area as compared with that of the first forecast is due to further transplantation.

Outturn.—From the summary of the district returns appended, it will be seen that three districts report a normal crop, 16 districts a crop varying from 70 to 96 per cent. and the rest below 70 per cent. of the normal. According to the above estimates, the provincial outturn works out to 81 per cent. of the normal as against 86 and the same estimate in the corresponding and final forecasts of last year.

Accepting 81 per cent. as the provincial outturn, the gross yield of the crop, on the basis of a normal yield of 131 maunds of clean grain per acre, is estimated at 5,928,800 tons this year as against 6,625,800 and 6,225,700 tons, respectively, in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

S. ABDULLAH, for *Director of Agriculture, Bengal.*

Dacca, the 20th December 1934.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 18th December 1934.

Forecast of the Winter Til (Sesamum) Crop of Bengal, 1934-35.

(*Note.*—On an average of the five years ending 1932-33, the area under til in Bengal has represented some 2·4 per cent. of the total area under til in British India.)

Character of the season.—At the beginning of the season the weather was not favourable for ploughing and sowing of the crop. From the middle of October dry weather facilitated further sowings and helped the growth generally. On the whole a satisfactory crop is expected.

Acreage.—The total area sown with the crop this year is estimated at 51,200 acres as against 50,600 acres last year.

Outturn.—According to District Officers' estimate, the outturn of the crop for the province, as a whole, works out at 87 per cent. of the normal as against 86 per cent. last year. Taking 7 2/5ths maunds as a normal rate of yield per acre the gross outturn for the province is estimated at 12,100 tons this year as against 11,800 tons last year.

K. McLEAN,

Director of Agriculture, Bengal (offg.).
